Gen. MacArthur Makes Another Visit To Korea

Orders Resumption Of Initiative By International Force

By FRANK CONNIFF
(U. N. Staff Correspondent)

WONJU, Korea, Feb. 20.—Gen. Douglas MacArthur said today he would not "arbitrarily" order United Nations forces to cross the 38th parallel without full consideration of the political issues involved.

The supreme commander of U. N. forces in Korea made his 11th visit to the battlefield and said that in any case his troops would not be sent across the boundary if there is "any reasonable possibility that a limitation" will be placed on their advance.

MacArthur returned to Tokyo late today, completing his latest flying visit to the Korean battlefield when his plane landed at Haneda airport at 5:40 p. m. (3:40 a. m. EST).

The five-star American general ordered "resumption of the initiative" by his international force, presently engaged in pushing the Chinese and North Korean communists northward.

Arousing Discussion

He said: "The question of recrossing the 38th parallel continues to arouse public discussion. "While President Truman has indicated crossing the parallel is to be resolved in accordance with my best judgment as theater commander, I want to make it quite clear that if and when the issue actually arises I shall not arbitrarily execute that authority if cogent political reasons against crossing are then advanced and there is any reasonable possibility that limitation is to be placed thereon."

Believe Gen. M'Arthur Has Hope Of Negotiated Peace

By ALLAN J. FUNCH
(U. N. Staff Correspondent)

WASHINGTON, Feb. 20.—Washington observers believe today that Gen. MacArthur's statement that he will not cross the 38th parallel without further instructions means he still hopes for negotiated peace without appeasement.

It was thought that the general's decision not "arbitrarily" to order ground forces across the parallel was a signal giving the UN a free hand to negotiate a cease-fire order with the Chinese Reds.

It was pointed out that MacArthur emphasized in his statement

that allied troops will not cross the controversial boundary if "there is any reasonable possibility that limitation" would be placed on such an advance into Red North Korea.

The few military observers who could be reached immediately after the general's statement became public said MacArthur not only had the express permission of President Truman, but also a direct last fall to pursue the enemy anywhere he found him in Korea.

President Truman told his news conference only last Thursday that MacArthur has complete authority (Continued on Page Two)

Train Disaster Results In 84 Indictments

Grand Jury Returns Indictments Against Pennsylvania R.R.

NEW BRUNSWICK, N. J., Feb. 20.—(INS)—A Middlesex county grand jury has returned 84 indictments charging the Pennsylvania Railroad with manslaughter—one for each of the persons killed in the Feb. 6 commuter wreck at Woodbridge, N. J.

The grand jury handed down its indictments last night after five days of hearings on the disaster that occurred when the Pennsylvania's crack commuter train "The Broker" plunged from a temporary trestle while bound for the shore.

The formal language of the indictment said the railroad "did feloniously kill and slay" the 84 men and women who died as a result of the derailment.

March 2 Date For Hearing
County Judge Charles M. Morris set March 2 as the date for representatives of the railroad to plead to the indictments.

The maximum penalty or manslaughter in New Jersey is ten years imprisonment and a fine of \$1,000. Since the railroad is not an individual it was presumed that the maximum penalty that could be exacted would be an \$84,000 fine.

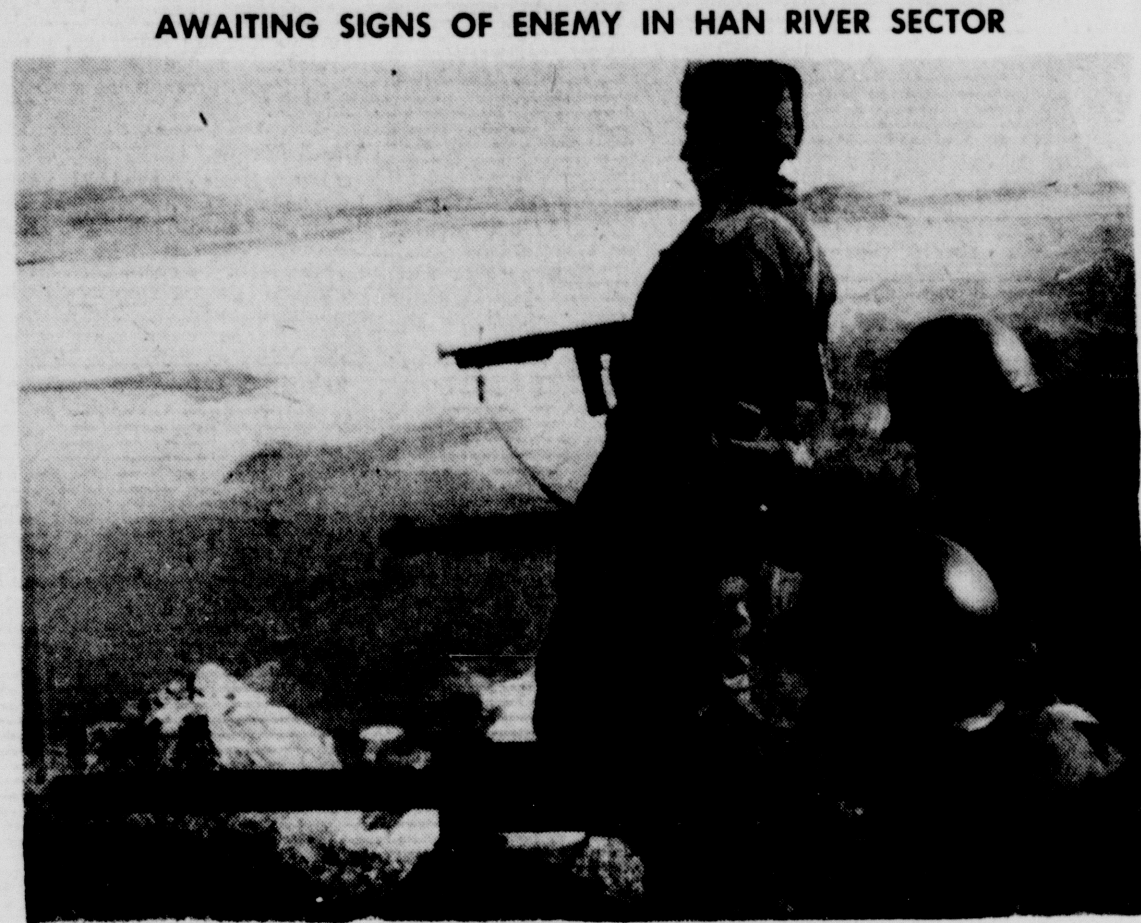

No specific cause as to the exact guilt of the railroad was given in the indictments but the hearings concentrated on the speed of the train across the trestle and whether the railroad had adequately warned the train crew of the temporary trestle.

Big Four Conference May Be In London

LONDON, Feb. 20.—(INS)—Sources in the British foreign office said today that although the U. S., Britain, and France have proposed holding a big four conference of foreign ministers in Washington they are willing to compromise on London.

These sources said the three western powers made such a proposal in parallel notes handed yesterday to Soviet Foreign Minister Andrei Vishinsky in Moscow by their ambassadors.

Modification Of Wage Policy Asked By Labor

WASHINGTON, Feb. 20.—(INS)—Economic Stabilizer Johnston met with the nation's top labor leaders today to hear their demands for modification of the 10 percent pay increase formula approved by the wage stabilization board.

By PHILLIPS J. PECK
(U. N. Staff Correspondent)

WASHINGTON, Feb. 20.—Labor will ask Economic Stabilizer Johnston to modify the 10 percent wage increase formula today as part of its campaign for revision of government mobilization policies.

AFL, CIO and railroad brotherhood leaders will confer with Johnston in the first of a series of talks they plan with top administration officials on changes in existing wage, price, rent, tax and manpower programs.

The conferences were arranged, apparently with President Truman's blessing, after union chiefs called at the White House and laid before the chief executive a full (Continued on Page Two)

Asks Spot-Check To Find Out If Controls Work

By WILLIAM KERWIN
(U. N. Staff Correspondent)

WASHINGTON, Feb. 20.—The National Production authority asked the Federal Trade Commission today to make a "spot-check" to find out whether its industrial controls are working.

At the same time, NPA Director Manly Fleischmann planned to disclose details of the government's new program designed to cut output of all consumer durable goods 20 to 30 per cent April 1.

Fleischmann is expected to call a news conference to describe new controls reducing consumption of steel, copper and aluminum 25 to 40 per cent by producers of autos, refrigerators and other home articles.

No 'Crackdown'

Spokesmen said NPA's request for a spot survey was "in no sense a crackdown" by the agency although the results may later lead to that development.

FTC has agreed to undertake the study and will use its established investigation staff to survey the situation on a limited but conclusive scale.

Information obtained will be transmitted to NPA compliance officers throughout the country for further study and action, if necessary.

Spokesmen said NPA's request was in line with President Truman's order directing all federal agencies to help in obtaining compliance with control orders.

RESCUES BOY

JOHNSTOWN, Pa., Feb. 20.—(INS)—Ten-year-old Leonard Sobbeck knew just what to do when his eight-year-old companion, Larry Twardzak, fell into the Conemaugh River at Johnstown.

When Leonard saw his buddy swept downstream yesterday by a swift current, he knew there was not time to call police or firemen. Instead he ran along the river wall to a set of steps, scrambled down and grabbed Larry from the water as he floated by.

"I knew what to do from watching my brother, Robert," Leonard said proudly. "He's a Boy Scout."

Senate Probe Of 'Influence' In R.F.C. To Start

By CHARLES B. SEIB
(U. N. Staff Correspondent)

WASHINGTON, Feb. 20.—Senate "influence" investigators went ahead with their probe of government lending policies today although President's Truman's plans for a shake-up in the top Federal Loan agency received a generally favorable reception.

Member of the Fulbright subcommittee indicated that they would begin open hearings on Wednesday to back up their charges of "influence and favoritism" in the Reconstruction Finance Corp.

The committee meets today to thrash out whether Donald Dawson, President Truman's personnel adviser should be called as a witness.

Dawson was named as one of a group of men who attempted to dominate the agency.

President's Plan

President Truman's plan would replace the RFC's present five-man board of directors with a single administrator, to be aided by a new loan policy board. The plan, which would continue the agency's independent status, represents a virtual acceptance of the reorganization proposal advanced by Sen. Fulbright, D Ark.

Fulbright said that he thought the President had put forward a (Continued on Page Two)

Gang Murder Suspect Held

LOS ANGELES, Feb. 20.—(INS)—Leo Joe Savano, 53, was held by Los Angeles police today in connection with the shotgun slaying of Sam Rummel, attorney for gambler Mickey Cohen and other underworld figures.

Savano was taken into custody at his North Hollywood home last night after, police said, they received information that he may have been involved in the Rummel gangland-style ambush killing last December 11. He was booked on suspicion of murder.

Detectives said Savano had been sought by Chicago authorities since he vanished after being convicted of manslaughter in 1920 in the slaying of his brother-in-law, Giacomo DeRoosa, and sentenced to one year to life imprisonment.

Gen. MacArthur Says Reds Have Suffered Stupendous Losses

(BULLETIN)

TOKYO, Feb. 21.—(Wednesday)—Battered Communist forces fell back along the entire Korean Front Tuesday as tank-led Allied troops smashed the Red Chechon salient in the central sector and rammed seven miles closer to Seoul in the west.

By HOWARD HANDLEMAN
(Far Eastern Director, U. N. S.)

TOKYO, Feb. 20.—United Nations forces wiped out the Communist Chechon salient in central Korea today and punched unopposed seven miles closer to the approaches of Seoul in the west.

An American Negro ranger unit erased Red pressure on Chechon by capturing Chuchon, eight miles to the north-east, against weakened enemy forces described by Gen. Douglas MacArthur as suffering one of the "bloodiest losses of modern times."

Front line officers reported resistance at Chuchon as "collapsing" and said that for all practical purposes the Red salient had been smashed.

An Eighth Army communique said U. N. troops advanced three miles southeast of Seoul and seven miles east of the city, but did not pinpoint from line positions.

Previously Lt. Gen. Matthew R. Ridgway had stated that his Eighth Army was lined up from the west coast to a point 35 miles inland on the Han river's "water's edge."

Offensive Ordered

The renewed Allied offensive was ordered by MacArthur on his 11th visit to the front lines. The U. N. supreme field commander said he would not "arbitrarily" order his forces to cross the 38th (Continued on Page Two)

Two Pickets Are Arrested

GARFIELD, N. J., Feb. 20.—(INS)—Two pickets were arrested today in a flare-up between CIO pickets and non-union workers at the entrance to the Samuel Hird & Sons woolen textile plant in Garfield.

Police arrested the pickets on charges of assaulting two detectives during what Garfield Police Chief Nicholas Perrapato described as "a lot of pushing and shoving and yelling."

The disturbance took place as morning shift workers attempted to enter the plant.

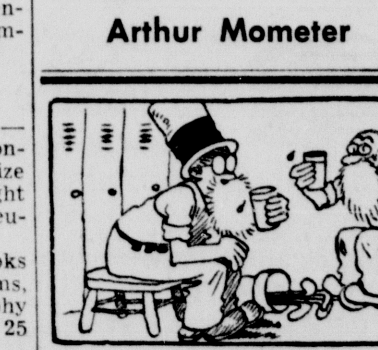

Under arrest on assault charges are Anthony Garofolo of Garfield and Joseph Corsi of Paterson, both members of the CIO Textile Workers of America.

They are accused of assaulting detectives Carmine Perrapato and Walter Furca. They were released in \$50 bail each.

The golfer's eye has a dreamy look, and his mind is a mile away, he thinks of days when the sun is hot and a golfer has chance to play. He thinks of a field that is verdantly green with fairways of closely clipped grass, of greens that are smooth as a sidewalk or street, and the sun is like copper hued glass. And he thinks of the puffs he will sink from afar, when he can get out there and play, he dreams as a golf club most usually does, it's 45 today.

Dulles Expects Early Draft Of Japanese Treaty

WELLINGTON, N. Z., Feb. 20.—(INS)—John Foster Dulles, President Truman's special representative, predicted today that the Far Eastern Commission will draft a Japanese peace treaty soon after his return to Washington this week-end.

Dulles told a news conference in Wellington:

"I see no reason why the Soviet Union should not make peace with Japan on the same terms as the rest of us.

"There is nothing in the terms of the proposed treaty that is not acceptable to the Soviet if she wishes to promote world peace."

Dulles, who has been touring the Far East for the last several weeks, said he had "many enjoyable meetings" with New Zealand Premier Sydney G. Holland and other officials.

Protest Strike Of Dock Workers Ties Up Ships At London

LONDON, Feb. 20.—(INS)—A one-day protest strike against the trial of seven union leaders for England's recent wild cat dock workers walkout tied up 152 ships today and caused nearly 20,000 dock workers to refuse to report to work.

The Dock board reported that men had walked off the job in London, Glasgow, Manchester, Liverpool, Greenock and Birkenhead bringing the unloading of ships with vital cargoes virtually to a standstill.

Early this morning several thousand London dock workers refused to report to work and instead gathered outside the Bow street court where the union leaders are on trial.

The seven leaders are charged with conspiracy to incite others to participate in illegal strikes.

An estimated 20,000 dock workers took part in the strike.

HOLLYWOOD, Feb. 20.—(INS)—Sultry Linda Darnell pursued her film career solo today after divorcing Peverell Marley, the ace cameraman she married after he guided her rise to movie stardom.

The screen's "Forever Amber" was granted a divorce from the lensman yesterday on testimony that his rudeness to her friends caused her great embarrassment and anguish.

She said that his conduct so distressed her that she had to place herself under a doctor's care.

The divorce ended a marriage that began with a Nevada elopement in April, 1943.

Husband Of White House Stenographer Will Be Witness

WASHINGTON, Feb. 20.—(INS)—The Senate Fulbright subcommittee announced today that E. Merl Young, husband of a White House stenographer, will be questioned tomorrow on charges that he peddled influence to applicants for government loans.

Chairman Fulbright (D Ark.) said after a closed-door meeting that Young is scheduled to be the opening witness at hearings designed to back up the subcommittee's charges of "influence and favoritism" in the Reconstruction Finance Corporation.

He said that Young will be questioned specifically about testimony that he offered to help the Texas Petroleum Corporation get a \$10,000,000 loan and set a price of \$55,000 on his services.

Port Director Will Be Heard

Senate Committee Probing Reports

By FRANK B. ALLEN
(N. S. Staff Correspondent)

WASHINGTON, Feb. 20.—The Johnson preparedness committee is reported today to have the personal testimony of J. P. Kerr, Orange, Tex., port director, that he paid out cash commissions to get defense shipments routed through the Orange seaport.

This developed as the committee continues its closed-door hearing into charges that an Army Transportation Service official and a Washington "five percent" allegedly obtained an agreement under which they received a one percent "commission" on port authority fees for certain defense shipments through Orange.

Look Into Arrangements

The group headed by Sen. Lyndon Johnson (D. Tex.), is looking into whether similar agreements may exist elsewhere in the sharp business rivalry between competing seaports.

Other witnesses are being questioned, including an official of the Army Inspector General's office, which made its own investigation of the Orange complaint, and Harold Dowell of the Army Transportation Service.

It was learned that Kerr is not accused of having received any money—which came from Orange city funds—in the deal.

Instead, he allegedly dealt out the payments in order to promote business and to make a good showing for his port.

City Firemen and Police Ask Three Weeks Vacation

John Oberleitner and George Rigby, representing firemen and police respectively, today met in private with members of Council and requested they be granted a vacation period of three weeks next year, instead of two, as at present.

It is reported their request developed from Council action in granting city employees, paid by the day, pay for five holidays they do not work.

It is said some members of Council favor the request and other members of Council do not favor it.

BELIEVE GENERAL MacARTHUR HAS HOPE OF NEGOTIATED PEACE

(Continued from Page One)

to send UN forces in Korea across the 38th parallel when and if such action is required by military necessity.

May Get Agreement?

The observers feel that MacArthur apparently believes that the UN may be able to get further with the Peiping government now if no recrossing of the arbitrary boundary is made.

It was also pointed out that the Chinese communists may be more inclined to negotiate at this time due to the severe losses they have sustained in recent military action on the peninsula.

MacArthur himself took note of the enemy's significant defeat in central Korea, and added:

"His losses have been among the bloodiest of modern times. As these casualties are from communist China's best troops, it will be difficult to replace them adequately."

Washington observers attribute the general's announcement to the possibility that he now is willing to have the UN negotiate an honorable peace in Korea instead of trying to force the issue by strength of arms.

Although UN forces in Korea are numerically inferior to those of the Chinese, the allies have repeatedly decimated the Reds through superior firepower and tactics.

Military officials believe that even though the UN forces have been driven back by sheer weight of human sea attacks in the past, they can hold today against any weight of men brought against them.

the Reds have suffered a significant defeat in central Korea.

He said: "His losses have been among the bloodiest of modern times. As these are from communist China's best troops, it will be difficult to replace them adequately."

The general took note of the recent Pravda interview with Russia's Premier Joseph Stalin, saying:

"I note that Marshal Stalin has just predicted annihilation of our forces in Korea—but his comrades will have to do a lot better than they have yet done to prove him a prophet."

MacArthur expressed himself as "clearly satisfied" with the battle-front situation and said:

"The enemy has suffered a tactical reverse of measurable proportions."

NEW ADVANCES TOWARD SEOUL

(Continued from Page One)

Parallel "without full consideration of the political issues involved."

He added that in any case his troops would not be sent across the boundary if there is "any reasonable possibility that a limitation" will be placed on their advance.

The five-star American general said the Reds have suffered "a significant defeat" in central Korea.

American artillery and air power battered the badly mauled Communists to help eliminate the Red salient which had menaced the vital Chechon supply center.

The Reds suffered 1,444 casualties on this sector Monday.

Capture by Task Force

The American force driving northward toward Chechon was aided by another U.S. task force which captured Sillim, eight miles northwest of Chechon and then slashed suddenly eastward in a squeeze play against remaining Red troops in the area.

Both forces were supported by tanks and artillery and received additional aid from close-diving fighter-bombers which caught many Red troops in the open.

Frontline reports from the west central sector also indicated that the Chinese were withdrawing northeastward, leaving suicide squads to plant mines and blow up bridges.

Some stiffening resistance was encountered by UN troops in their powerful northward punches to maintain contact with the remnants of the battered Red armies pulling out of the central front.

Repulse Attack

Americans on the east anchor of the central front repulsed an early morning attack by North Koreans who drove a 50-yard wedge between two U.S. companies. After an hour-long battle the GIs were again in control of the ground.

The Communist stronghold of Chechon is 50 miles below the 38th Parallel and 10 miles north of the five-way rail-highway hub of Chechon.

International News Service War Correspondent Cecil Brownlow reported that the Communists were regrouping in the vicinity of Hoengsong, northwest of the Chechon salient, for an apparent stand against UN forces.

Air and ground patrols reported more than 30,000 Chinese troops concentrated around Hoengsong, 32 miles south of the 38th Parallel and 53 miles east southeast of Seoul.

The regrouping Reds are survivors of a 250,000-man assault force thrown into a Red offensive last week and stopped cold by hard-fighting UN soldiers.

Arrayed for 35 Miles

On the western front the Allies were arrayed for 35 miles along the Han river below Seoul and Turkish troops still patrolled the In-chon-Kimpo peninsula at will, reaching within 17 miles of Parallel 38 without encountering enemy resistance.

Enemy artillery activity increased Monday near Seoul where Allied field pieces knocked out six Red tanks or self-propelled guns on the southeast edge of the city.

Two UN patrols crossed the Han in different places and both were fired upon by Chinese Reds using small arms and mortar fire. One enemy patrol attempted the southward crossing of the river but was dispersed by artillery fire.

Lt. Gen. Matthew B. Ridgway, Eighth Army commander, continued to keep pressure on the enemy all across the peninsula.

American officers estimated that the Reds need a minimum of two weeks to replenish their men and supplies. Their cumbersome supply system has been hit hard by UN planes and warships.

One of the main enemy supply sources at Wonsan on the east coast of North Korea was under continuing bombardment by a powerful naval armada.

U.S. ships were joined Tuesday by the British cruiser Belfast and the Australian destroyer Warramunga. The armada plastered Communist communication lines, supply areas, troop concentrations and gun emplacements with shells and rockets.

TO SEEK PROOF OF RUSSIA'S DESIRE FOR WORLD PEACE

(Continued from Page One)

summit meeting of the Big Four foreign ministers, necessitates a quick Russian reply.

Hope To Forestall Filibustering

If the reply is favorable to an agenda meeting, the Western powers hope to forestall customary Soviet filibustering tactics. In the earlier meetings the Russian representatives have debated for weeks the order in which specific items were to be discussed.

Observers felt that Russia could prove good faith by agreeing to discuss the agenda in advance. To date Moscow has insisted that a foreign ministers' conference consist of itself to German problems, particularly the Russian claim that the West is rearming Western Germany with aggressive intent.

The latest note on the Russian proposal for a meeting to discuss German problems is reported to be brief and to the point.

Many believe that the terseness is due to the propaganda blast delivered by Soviet Premier Joseph Stalin charging the U. S. and the West of plotting a new war.

Skeptical of Proposal

U. S. skepticism of the Russian proposal that German questions be solved first was voiced in a State department summary of "Soviet pressures on Germany."

An official State department publication, the pamphlet declared:

1. Reliable reports indicate that Russia has 35 armored or mechanized divisions deployed in Poland and East Germany.

2. Rail lines running from Eastern Germany to Russia, which were torn up as reparations after the war, have been rebuilt, providing a supply line from Russia to East Germany.

3. The Communist party in East Germany has been carrying on a large scale purge of "questionable fellow travelers and opportunists" in order to retain elements faithful only to Moscow.

4. Communist propaganda has tried to frighten West Germany against rearming by pointing to the fate of South Korea.

The pamphlet said: "Since the USSR insists that the Western powers are rearming Western Germany when they are not and the Soviet Union is not arming Eastern Germany when it is, the idea of limiting a conference with the Western powers to the subject of demilitarizing Germany—or even of making this issue the principal subject—is absurd."

It added: "Past experience and current intelligence have made the U. S. skeptical of the Kremlin's good faith."

Duchess Of Windsor In New York Hospital

NEW YORK, Feb. 20.—(INS)—The Duchess of Windsor's secretary said today that the vivacious American-born social leader is in Harkness Pavilion of the Columbia Presbyterian medical center for a "routine medical check-up."

The secretary said: "It is a routine check-up just like many people undergo. When she will return to her hotel depends upon what her doctors say."

The former Wallis Warfield Simpson has been suffering recently from a heavy cold which was reported to have forced cancellation of a projected cruise with the Duke to Nassau, Bahamas.

Rotarians Hear Dr. A. A. Booth

Brotherhood Night At New Wilmington

New Wilmington Rotary club observed brotherhood night at its regular weekly dinner meeting at the United Presbyterian church Monday evening with 30 guests at the meeting.

Dr. A. A. Booth of Sharon spoke and showed films on the Lancaster cleft palate clinic, which is a clinic to help persons with deformities of the jaw, speech organs, etc.

Dr. Booth brought with him to the meeting four persons who had attended the clinic and had been helped to speak and correct their deformities.

Films were shown on the rehabilitation program of the clinic, which concentrates mainly on children.

C. B. "Rosie" White was in charge of the program.

picture of their dissatisfaction with the way the mobilization effort is being run.

Desires of Labor

Specifically, labor wants: A less rigid wage formula, "more effective" price-rent controls, an "equitable" tax program, a shift of manpower controls from Defense Mobilizer Wilson to Labor Secretary Tobin, and a greater voice in mobilization planning from here out.

Labor currently is giving "careful consideration" to Wilson's offer to name one of its leaders, possibly CIO Auto Workers Chief Walter Reuther, to a top mobilization post but said this would not satisfy all its demands.

The union representatives emphasized that their chief complaint is that the defense effort reflects "only the philosophy of big business" and labor's advice is ignored.

"fine plan" and indicated he would support it. Sen. Capehart (R. Ind.), ranking GOP subcommittee member, declared however that he opposed one-man rule.

Capehart, who said he was prepared to introduce a resolution to kill the reorganization plan, said: "All they need over there (at the RFC) is a good chairman and a good board of directors. The RFC should be run by a chairman and board just like any other good business."

Subcommittee plans now call for hearings to open Wednesday with testimony by E. Merl Young, husband of a White House stenographer. Young is prominently mentioned in the report which quotes a witness as saying that he offered to sell influence at the RFC for a fee.

He will be questioned particularly about the charge in the report that he offered to help swing a ten million dollar loan for the Texaco Petroleum Corp. In return for an \$85,000 fee.

Mrs. Dessie Crawford Dies Early Today

Mrs. Dessie R. Crawford, aged 63, of 57½ Liberty street, East Palestine, O., former resident of this city, died at the family residence at 1:50 a. m. today following a stroke suffered a short while before.

Born in New Castle, April 5, 1887, she was a daughter of Joseph and Rachel Davis Reynolds. She came to East Palestine from New Middletown, O. She was married December 22, 1904 to Theodore H. Crawford, who survives.

Mrs. Crawford was a member of the Evangelical and Reformed church of New Middletown, O.

Surviving in addition to her husband are two sons, Lawrence W. and James H. of Petersburg, O.; two daughters, Mrs. Joseph Mikesell of East Palestine and Mrs. Arthur Ohlin of New Middletown; 14 grandchildren; one brother, Elijah Reynolds of this city; five sisters, Mrs. Anna Ford of Ellwood City; Mrs. Sadie Fenwick of this city; Mrs. Cyrus Knight, Mrs. Callie Ford and Mrs. William Garrod, all of East Palestine.

Funeral services are planned for Thursday at 2 p. m. from the Fry funeral home in Columbiana, O., with Rev. Oras Rupe officiating. Burial will follow in East Fairfield cemetery. Friends may call on Wednesday from 7 to 9 p. m.

PRE-ARRANGEMENT

It is a natural human tendency to postpone decisions on painful matters . . . but often it means leaving a burden for others to bear. Why not do what other thoughtful persons have done—to take care of an inevitable duty in advance? We will gladly explain our pre-arrangement plan which has brought peace of mind to many . . . and with no obligation on your part.

THERE IS ALWAYS SOMEONE

The present changes in prices of everything today, makes it impossible to make much of a contract many days ahead. A funeral director never knows when he orders funeral goods, what they are going to cost him when they come, as manufacturers do not set a price. Therefore, we do not want to sell any funeral goods, until needed by our patrons. No one is going to make promises to furnish something that they do not know at the present time whether they can do so inside of six months or not.

There has never been a time that American people were unable to purchase funeral goods, and there never will be, regardless of where prices go. Everyone has some friend or relative who will look after taking care of those matters. If one goes to their old established funeral director, who has always taken care of him, he will still continue to do so.

JOAN McKEE WEDS OLIVER R. KERR

The home of Mr. and Mrs. W. Clyde McKee, East Brook, was the setting for the lovely wedding of their daughter, Margaret Joan, and Oliver Ronald Kerr, nephew of Miss Grace Kerr, East Brook, on Saturday, Feb. 17, at 7:30 o'clock.

Rev. Hugh Snodgrass, pastor of the East Brook U. P. church, officiated at the evening service, with appropriate nuptial recordings furnishing the background music. The bride presented an attractive appearance, dressed in a frock of teal blue nylon marquisette with navy accessories. Her sister, Mrs. Donald M. (Marilyn) Hanna, of Cherry Point, N. C., was matron of honor for her sister, wearing a street length dress of navy with gray accents.

The groom's twin brother, J. Russell Kerr, served him as best man. Following the ceremony, a reception was held for 25 guests. Mr. and Mrs. Kerr left for a wedding trip to an unknown destination. At the completion of their trip, the groom will return to the naval base at Quonset Point, Rhode Island, and the bride will remain at the home of her parents.

Both young people are graduates of East Brook high school. Mrs. Kerr is employed as an operator at the Bell Telephone company.

MISS DOROTHY RHODES TO WED ON SATURDAY

Miss Dorothy Rhodes, daughter of Mr. and Mrs. Edward Rhodes, of 1114 Cunningham avenue, will become the bride of Ronald Oliphant, son of Mr. and Mrs. Harold Oliphant, Berger street, on Saturday, Feb. 24.

The church ceremony will be performed in the Wesleyan Methodist church, Saturday evening, at 6:30 o'clock, with Rev. Raymond Kuhn to officiate.

T. S. B. Club Party
Members of the T. S. B. club met at the home of Mrs. Harold Hoagland, 139 Mills way, Thursday evening, with Mrs. Franklin Rice as hostess.

Canasta was the diversion, with Mrs. Jack Tindall, Mrs. Audrey Steele and Mrs. Bevan captaining prizes. A dainty lunch was served by the hostess, aided by Mrs. Hoagland and Mrs. Guy Cochran.

On March 1 the group will gather at the home of Mrs. David Bevan, 508 Young street.

GRIMM-SMITH WEDDING NEWS

Miss Maxine Grimm, daughter of Mr. and Mrs. J. F. Grimm, 441 Court street, became the bride of James Thomas Smith Jr. at an impressive ceremony Saturday, February 17, at 7:30 o'clock, with Rev. George Jones, pastor of the Alliance Gospel tabernacle, performing the service at the parsonage, 210 Edison avenue.

The groom is the son of Mr. and Mrs. James Thomas Smith, Norfolk, Va.

The bride chose a beige suit, with navy accessories and an orchid corsage as charming complements. Miss Norma Grace Grimm served her as maid of honor, attired in a Glen Plaid suit, a corsage of pink and white baby mums completing her ensemble.

Lester Grimm served the groom as best man.

Upon leaving the parsonage, the couple was met by a group of young people from the Christian and Missionary Alliance church, who escorted them to the home of the bride's parents, where a quiet reception was held, after which they left for Washington, D. C., to spend some time and continue on to Norfolk, Va., where they will take up residence on Walnut street, that city.

The couple met while attending Allentown Bible school. The bride, up until her marriage, had been connected with the Bell Telephone company as an operator. The groom is affiliated with the soil testing department of a firm in Norfolk, Va.

MRS. KATHERINE FEE FETED ON BIRTHDAY

Mrs. Katherine Fee was honored on her 79th birthday anniversary recently when members of her family entertained at her nephew's tearoom in New Castle. Mrs. Fee makes her home with her daughter, Mrs. William Gilboy, Wilkinsburg, Pa.

Following a full course chicken dinner, the group went to the home of the honoree's son, Mr. and Mrs. E. D. Fee, West Washington street, where an informal time was enjoyed. A purse of money and several cards were received by Mrs. Fee in honor of the occasion.

WHITTAKER-FRIDAY PICTURESQUE RITE

Wearing a gown of lace over lustrous satin and attended by a matron of honor, bridesmaid and two flower girls, Miss Margaret Whittaker graced a beautiful professional for her marriage to Larry D. Friday on Saturday evening, February 17.

The bride is the daughter of Mrs. W. H. Whittaker of Spring avenue, Ellwood City, and the groom is the son of Mr. and Mrs. Clair Friday, First avenue, Ellwood City.

Officiating at the double ring ceremony in the First Methodist church of Ellwood City was Rev. E. V. May, assisted by Rev. R. H. Little of Oakmont, former pastor of the church. Over 500 friends and relatives witnessed the exchange of vows at 7:30 o'clock. On the altar, white flowers were banded against a background of candelabra and cathedral candles in candelabra.

David Jones II presented several nuptial selections at the organ, and accompanied Roy Meehan as he sang "I Love You Truly" and "At Dawning."

Escorted of the altar and given in marriage by her brother, Arthur V. Whittaker, the charming bride appeared in a gown designed with a very full skirt which ended in a court train. The snug bodice was dramatized by a nylon tulle yoke and long tapered sleeves of lace and tulle. A dainty lace Bustle was a style note of the tiny waistline, and her fingertip veil of tulle was secured by a lace halo.

A colonial bouquet of white roses completed the attractive picture. The bride had for her matron of honor Mrs. Coleen Agostini, gowned in raspberry net over taffeta, with an off-shoulder effect, cape sleeves and full skirt as features of the ensemble. She wore a matching ruffled net headband and carried a colonial bouquet of yellow roses.

As bridesmaid, Miss Mary Ann Gettemy chose a gown of aqua net over taffeta fashioned like that of the matron of honor. Pink roses made up the colonial bouquet, which she carried. Tiny flower girls, Janice and Peggy Wright, were dressed in white organdy over taffeta.

Frank Geho was best man for the ceremony, with James Case, Glenn Morris, Samuel Mullin and Jack Atkinson as ushers.

The bride's table at the reception in the church hall was centered with a tiered wedding cake, with pink and white color scheme carried out in the festive decorations. Refreshments were served by the Susannah Wesley class of the church, with Mrs. Paul Cartwright and Miss Janice Fitzgerald pouring.

The popular young couple later departed for a honeymoon in Virginia and Maryland, and will reside in their newly furnished apartment at 12 Fifth street upon their return.

Mr. and Friday are graduates of the Lincoln high school of Ellwood City, class of 1948. The bride is a graduate of the Miss Conley Secretarial school of Pittsburgh and the groom is a junior at Westminster college, New Wilmington.

ECONOMICS GROUP HEARS C. M. ENGLAND

Council of Home Economics Women met Monday evening at the home of Mrs. James A. Bradford, Buena Vista way, Walmo, with co-hostesses including Mrs. William W. Davis and Mrs. Harold Glenn.

President, Mrs. William Cosel, conducted a business meeting, with reports given by various committees. Special guests for the party were Miss Margaret Easley and Miss Joan McKnight, who are in New Castle to present a cooking school and represent the Manufacturers light and Heat company. Mrs. Donald C. McGrew was a guest of the hostess.

Mrs. Viola Sadler, program chairman, introduced Clarence M. England of the Pennsylvania Power company who spoke on "Adequate Wiring" using slides to show the proper and improper wiring of each room of the house. Special constructed panels were demonstrated, one with improper wiring carrying an over-burdened load, and another of proper wiring. Different examples of improperly wired home equipment was displayed.

"Guest night" will be observed at the next meeting on March 19, with the group to gather in the Y.W.C.A. Guests will be members of the Youngstown chapter of the Council of Home Economics, with the program theme to be "Invitation to Loveliness in the Home." Hostesses will be Mrs. Paul Rowland, Mrs. Howard Fox, and Mrs. James E. Peacock.

Mr. And Mrs. W. T. Jones Have Golden Anniversary

Mr. and Mrs. W. T. Jones of 611 Newell avenue passed a milestone in their lives when they celebrated their golden (50th) wedding anniversary at their home on Sunday, February 18.

Mr. and Mrs. H. M. Fugitt received members of the couple's Sunday school classes from 2 to 4 p. m., with eighty guests calling during the day. At 6 o'clock a baked ham supper was served buffet style, with a centerpiece of yellow chrysanthemums gracing the table. Mrs. Cyrus Main, sister of Mr. Jones from Ellwood City, was in charge of the decorations, with a gold and white color theme carried out.

The four-tiered cake had been baked by Mrs. A. D. Knight of Warren, Ohio, with Mrs. James Prindle and Mrs. Knight pouring. Paul Jones composed, arranged and sang "Our Anniversary" in honor of his parents. Guests included Rev. and Mrs. H. L. Krause and Mrs. Maude Thompson, aunt of Mr. Jones, who served their wedding supper in 1901.

Residents of New Castle nearly all their lives, Mr. and Mrs. Jones were married February 18, 1901, by Rev. Robert Wilson, pastor of the Primitive Methodist church. Mr. Jones is a retired Pennsylvania Railroad worker.

They are the parents of eight children, all living: Mrs. Florence Fugitt, Mrs. Ethel Knight, Mrs. Veda Prindle, and sons Harold, Guy, Burton, Paul and Arthur. There are sixteen grandchildren and two great grandchildren, all living except one grandchild, Arlene Knight.

NOTHING ON FAITH

With the people of the United States facing an unprecedented burden of taxation, Congress will be acting in the public interest if it accepts nothing on faith. Demands for money for defense should be no less carefully scrutinized than demands for money for the regular operations of the government.

There are indications that Congress may follow such a course. Representative Sheppard, Democrat, chairman of a House subcommittee on appropriations, says no item will be cleared solely because it bears a "defense" label. Representative Taber, Republican, promises similar attention to details.

It is no criticism of the men of the military establishment to suggest that there may be a certain amount of "fat" in the military budget. They believe in playing it safe at all times. As a result they are in the habit of overestimating their financial needs and adding a few millions here and there in order to provide an emergency cushion.

In these days, however, the government must cut its cloth a little closer than that. Nobody is in favor of neglecting the national defense and it must have a priority status, but taxpayers certainly do not want to see money thrown away.

The proper course, then, is for Congress to assume that there is nothing sacred about any budget, whether military or civilian.

REAPPORTIONMENT

Unprecedented as it is, and drastic besides, the administration's congressional reapportionment bill is expected to generate much heat in Congress.

State legislatures are authorized by the Constitution to "fix the time, places and manner" of holding elections for United States senators and representatives. But the same paragraph says that Congress "may at any time by law make or alter such regulations except as to the place of choosing senators."

The United States Supreme Court has ruled on the question. It held that Congress has the power to set up standards that states must follow in enacting reapportionment legislation. Apparently Congress can do what the bill provides if it wants to.

Will Congress want to? Such a bill would have far-reaching political consequences. Its net result would be, as it is designed to be, to give the cities more representatives, the rural sections fewer.

States would be required to set up congressional districts in accordance with certain standards. There could be no representatives-at-large. The population of each district would have to conform as nearly as possible to the average found by dividing the population of the state into the number of districts allotted. Representatives from states failing to meet these requirements would not be seated.

LITTLE HOPE FOR BIG FOUR PARLEY

Diplomatic officials in Washington see little hope for a Big Four foreign ministers conference to discuss differences between the Western powers and Russia.

The United States, Britain and France may sit down with the Soviet Union at a preliminary meeting in Paris in an attempt to work out an agenda for talks at the ministers' level, but little success is expected.

In the first place, American officials point out that Russia insists that reararmament of Western Germany should be the main topic to be taken up. The Western powers definitely do not agree, although they are willing to talk about Germany along with other issues.

Secondly, it is doubtful that the Soviets would agree to go into detail on the Far Eastern situation, one of the big points in any agenda acceptable to Americans, British and French.

Therefore, the preliminary talks in Paris are expected to accomplish little in the way of concrete results. Some officials have reached the feeling that the time has passed for discussions and that all efforts should be concentrated on building defenses.

RED CHINA'S VAST LOSSES

Declarations of military officials at Washington that the Eighth Army in Korea is able to hold off 1,000,000 Red Chinese ought to be a pretty adequate retort to Josef Stalin's sneers at the American GIs.

The Eighth Army—partly, no doubt, because of some of the vicissitudes it has undergone—is constantly demonstrating its battle-hardened capacities. Elements of American and other Allied troops have exhibited frequently a cool ability to stand one of the most severe tests of warfare by fighting their way out when surrounded.

And the U.N. fighters have been inflicting tremendous losses on the Reds. This has already had such effect on Chinese Communist leaders that a British reporter, Arthur Moore, who had the peculiar privilege of visiting Peiping recently, explicitly states the Reds are deeply worried. They are losing valuable trained men and are certain, against the tremendous firepower of the U.N., to lose many more.

American military leaders assert that Red China would have to throw at least 1,500,000 trained troops into the conflict to make good on its boastful design of pushing the U.N. army "into the sea." To go that far Mao Tse-tung would run a risk of dangerously weakening his military resources.

The situation, if the United Nations remains steadfast, should develop a more amenable attitude at Peiping and increase chances for a fair disposition of Far Eastern issues.

What Constitutes Demobilization?

The intriguing question of just what constitutes demobilization was a major topic in world chancelleries today as one of the Premier Joseph Stalin's interview predicting collapse of the United Nations.

Stalin maintains that Soviet Russia completed demobilization at the end of 1948.

British Prime Minister Clement Attlee and Defense Minister Emmanuel Shinwell maintain that the Russians have 175 divisions under arms. That could mean 2 million 500 thousand men.

Great Britain dropped her military level to the regular standing territorial or home army figure of 100 thousand, although considerable forces had to be maintained overseas, particularly in Malaya and Hong Kong.

U. S. Army Vanished
The once monumental United States Army, which cut Adolf Hitler's legions down like wheat before the scythe, virtually vanished in thin air. Gen. Omar N. Bradley not long ago told a Washington Committee how at one moment he had a great military machine in his hands and the next moment almost nothing.

Traditionally, of course, Europe always has had a different conception of mobilization than the one that prevails in the United States.

Compulsory military service has almost always prevailed on the European continent.

The word mobilization as such has implied an emergency call-up for war. It therefore has to some extent gone into limbo along with the term ultimatum.

In the days before Adolf Hitler's invasion of Poland and the Japanese attack on Pearl Harbor, nations usually observed a few niceties before chewing each other to bits.

Used To Be Final Warning
There was a final warning or a notice of caution before the first fatal shot was fired which in some cases at least gave to bewildered civilian population a chance to get out of the line of fire.

As far as Russia is concerned, the British figure of 175 divisions under arms has found substantiation in numerous sources.

While this armed force is automatically a weapon of aggression and expansion, there is also the

fact that such military diversion is of tremendous benefit to the Soviet treasury.

The Russian armies "live on the land." Whether quartered in satellite nations or on Soviet soil itself, the troops are bivouacked and fed largely at the expense of the local population.

For the officers corps there are requisitioned villas and the non-commissioned men have barracks. But the rank and file, especially in the rural areas, are quartered in peasant homes and vast amounts of food and livestock are appropriated regularly from collective farms for the soldiery.

Would Be Unemployment
If the Russian army were actually disbanded there undoubtedly would be unemployment. For there is not reason to believe that Russia's industrialization has kept pace with a rising population.

This would mean doles and a far greater drain on the nation's scarce food supplies.

In any case, Russia, whether ruled by czars or commissars, always has put a premium on maintenance of a professional army. There was no greater calling card in the old days than the white tunic and gold braid of an imperial officer.

There was no more imposing figure in continental Europe today than a high Russian officer wearing crimson shoulder boards as big as geography books—a glistening contrast, incidentally, to the private soldier who has one uniform and reportedly hibernates once a month while it is being dry-cleaned.

Any definition of demobilization in the present state of world affairs is surely academic.

It is significant that while in claiming he has wiped out his army, Stalin does not deny that he still has 175 divisions. In the Soviet mathematical and military scheme of things, this may constitute demobilization. It was not for nothing that Winston Churchill once called the Russian mentality a riddle wrapped up inside an enigma.

Washington Calling

Much Demanded Of Eisenhower

WASHINGTON, Feb. 20.—So much is demanded of General Eisenhower both at home and abroad, pressures are being applied here that tend to force him into the role of politician rather than soldier.

On the one hand are those who want to pin him down on the number of American troops to be sent to western Europe and the ratio of American sea and air power to be committed to that area. This now has become a partisan political issue.

To Get Eisenhower on the record on that one might serve a partisan purpose in the not-too-distant future. If for any one of several reasons, most of them beyond his control, the policy of rebuilding Europe's strength should fail, then he would be tagged with failure. Quite apart from political considerations, a commander going into the field to assume an extremely difficult command should be allowed the kind of flexibility that Ike wants.

Too Much Of Burden
On the other hand, because the European program depends for its acceptance on Eisenhower's popularity and prestige, the Truman administration has tended to let far too large a share of the burden fall on him. The effect is to prod him into "selling" the policy. Granted that he is a superb salesman, this is a distortion of his real function, which is to carry out the field of a hazardous undertaking. The very fact of this distortion, and particularly if he is drawn deeper into a political dispute, may compromise his effectiveness.

His own desire was to return to Europe and get on with the job as quickly as possible. His sense of timing told him that it is imperative to start building a concrete organization at once while hope and enthusiasm are still in the first flush. The Europeans, whom he did so much to encourage and inspire, would never understand delay.

Example of France
The example of France illustrates this very well. Prime Minister Rene Pleven returned to Paris from his successful Washington visit prepared to take the series of bold steps that he outlined in talks with American officials.

At the outset Pleven intends to bring about passage of an electoral reform law that will end the system of proportional representation that today results in such a false allocation of the seats in parliament.

Under a law reflecting France's true divisions, the communists would be cut down to fewer than 50 seats. Parties on the right, conspicuously the DeGaulleists, would come up.

With such a change Pleven's own government as he candidly explained to President Truman and Secretary of State Acheson, may not be returned to office in new elections. But he faced this prospect philosophically, believing that the primary step of electoral

The House is looking for more ways of raising money before hiking taxes and we've still got advertising space open on our postage stamps.

You can't tell me George Washington would mind giving up his seat to a pretty girl if her studio paid enough to the government to put her face on its printing plates.

And the Department of Agriculture puts out enough pamphlets to sell back covers to every farm product advertiser in the country.

Maybe there's some law says revenue has got to be extracted like infected teeth, but if there isn't, there are some mighty pleasant ways left to jingle the government cash drawer and why don't we try them?

When I am elected president I'll sell space on the Capitol dome if it will put enough currency in the register to lift the yoke slightly from the taxpayer's bowed shoulders.

What's wrong with the government taking an honest commercial buck that comes easy? Must it always make revenue the hard way?

Overhaul Constitution?

(By HOLMES ALEXANDER)

WASHINGTON, D. C., Feb. 20.—The Great Debate is not only an argument on how far to go in Europe—it is also one on how far to trust the Truman Administration or any inept administration. Until the full significance is understood, the Great Debate does not make as much sense as it should to the American public. For instance, any number of precedents have been cited to show what Constitutional authority was used by former Presidents. But all these citations are quite beside the point on Capitol Hill today. The question there and now is how much authority should be given Mr. Harry S. Truman and a very specific group of personal advisers—Secretaries Acheson, Marshall, Brannan, et al.

It is not necessary—and not constructive—to be too rough on the Truman Administration in this matter. No doubt the President does his honest best, and his advisers should be given credit for full sincerity. But the fact remains that neither the nation nor the 82nd Congress has much faith in the White House. That was demonstrated last November. If the Congressional elections were held today, the fact would be demonstrated many times more clearly. During the next two years, there is not much that Congress can do except to take as much responsibility as possible away from the administration and into its own hands.

Short-Term Solution

But while that short-term solution is being applied, the national lawmakers might well be looking into ways for permanent solution. The problem is bigger than the Truman Administration, for it is the problem of lame duckhood. What can we do to prevent the return of a situation where we have an Executive who has lost the nation's confidence and a Congress which is divided to the point of deadlock?

Well, the Brookings Institution was exploring this very matter two years ago when it published a book called "Toward Efficient Democracy" by Arthur C. Millsap. He sought ways by which we might modernize our 18th Century Constitution to meet the 20th Century realities. The book was a one-day sensation in Washington because it suggested firing the President and the House of Representatives. But it made some good arguments for these and other suggestions.

Sort Of 'Elective Kingship'

The presidency, as we see today, has become a sort of "elective kingship" and has exactly the advantages and shortcomings of the monarchical system. If the President happens to be a strong man, we get a strong leadership—much more uneven than the challenges of history should allow. In either event—a strong President or a weak one—we are stuck with the man for a series of four-year terms, no matter how loudly the country groans for a change.

The House of Representatives, now 435 members strong, is cumbersome in size and divided in nature. Its teamwork with the Senate is a mere matter of chance. Both national chambers normally take time out every summer and every election-year autumn. If the Congress is hopelessly divided, or if the Congress and the President are at odds, there is no sure way to break the deadlock, even when the clock of history is ominously ticking.

Plan For National Council

Mr. Millsap has collected and presented the ideas of a number of serious students. He comes up with a plan for a 21-member National Council which would combine the work of Congress and the President. Members of the Council would be nominated in party conventions and chosen for three years by popular election. The Council would then appoint one of its members to act as President of the United States, subject to instant removal. The House of Representatives would be abolished, and the Senate would be continued with powers of review and limited veto. But all the work of law-making, treaty-making and administration would be done by these 21 Council members who would be in continuous session.

These are startling ideas, as new to us as the Constitution was new to our forefathers in the 1780's. But as James Madison wrote at the time of the first "great debate" in our history: "Harken not to the voice which petulantly tells you that the form of government recommended for your adoption is a novelty." In Madison's time, as now, we need to feed our Democratic system with new ideas.

Looking At Life

By ERICH BRANDEIS

"A business has little chance to be successful if it depends on genius to make it successful. "Never go into a business unless it can be made to prosper by the efforts of average people."

That is what one of the country's outstanding executives told me when once again I probed into the mysteries of SUCCESS.

The history of American prosperity and progress is the history of AVERAGE people. It is the history of character, industry, levelheadedness, honesty and vision—all typical American traits which are not the exception but the rule in this country of ours.

And I wonder whether what applies to business does not equally apply to government.

Look at America's history. There HAVE been many outstanding men—but they have always been in a small minority. Year after year, decade after decade, America has grown and gone ahead and our present leadership, notwithstanding, will continue to grow and go ahead.

There is much criticism of the President, of his Cabinet, of our Congress. Are they any worse than the run-of-the-mill Presidents, Cabinets, Congresses of the past?

I am brave enough—and hope so to remain—to insist that the success or failure of our country will be due to us, the people, rather than to those whom we elect.

To test my theory, I looked up the biographies of our past presidents, as they are given by Professor Arthur M. Schlesinger, Jr., associate professor of history at Harvard university, and Pulitzer prize winner.

You will find them in the "Information Please Almanac."

About James Madison the professor says that he was "small, wrinkled, unimpressive. Madison had an acute political intelligence but lacked executive force."

James Monroe "possessed qualities of judgment rather than of leadership." Martin Van Buren was "small, erect, dapper and had a reputation for slick politicking."

John Tyler's presidency "was hamstrung by the basic contradiction between his own ideas and those of the party which put him on the ticket."

Millard Fillmore was "urbane, gracious, colorless and weak, an undistinguished President." Franklin Pierce was "kindly and courteous, weak, unstable and lacking in presidential qualities."

James Buchanan is characterized as "legislative, indecisive and timorous." Andrew Johnson was "honest, courageous and intelligent," but lacked the tact, patience and self-control to be an effective President.

Ulysses S. Grant was "inarticulate, tactless, loyal to his friends, an able general who should never have accepted the presidency."

Benjamin Harrison was "an honest man of very medium abilities." Warren G. Harding—"a handsome and genial man, underestimating in his associates' lack of political ideas or fortitude. Harding was totally unfit for the presidency."

And yet, to paraphrase the famous radio-jackpot slogan, our country grew—and grew—and grew. (Distributed by King Features Syndicate, Inc.)

Professor Leaves Nearly Million To University

URBANA, Ill., Feb. 20.—(INS)—A professor of mathematics whose annual salary when he died was only \$6,000 was revealed in probate court to have left nearly \$1,000,000 to the University of Illinois.

The will of the late George A. Miller related an amazing story of how the 87-year-old mathematician who started at Illinois 45 years ago at \$2,000 a year pyramided his salary into a huge fortune. Miller died Feb. 10.

Miller, whose mathematical theories gained him world recognition, joined the university in 1906 and retired in 1931. His wife died in 1949. There were no children.

Stocks And Bonds

Marc C. Norton, vice president of the First National bank of Champaign, Ill., executor of the will, said he did not know Miller's investment formula. Norton explained the professor's holdings represented stocks and bonds in companies throughout the country and there were few "blue chip" stocks.

Miller was said to have had "an unshakable faith in small business," and as they increased in value he bought more.

Attorney James G. Thomas, one of the writers of the will, said Miller did not stipulate that his gift be set up as a memorial or special fund. Miller merely told his attorneys the money should be used for teaching and research.

Repay Obligation

"Everything I have, I received from the University. I simply want to repay the obligation."

Miller won the International Mathematics prize in 1900 and in 1901 he was president of the Mathematics Association of America.

Over 800 of his articles appeared in 20 periodicals in the past half century. His writings and his library—rated as one of the great mathematical collections of the world—made the university outstanding as a place for study in his specialty.

Miller was born in Lynnville, Pa., (Lehigh county) July 31, 1863. He received both his Bachelor of Arts and Master of Arts degrees from Muhlenberg college at Allentown.

The professor's niece, Mrs. Roy V. Thornton, of Chicago, expressed surprise at the size of her uncle's estate. She said:

"I suspected he was comfortably off but I thought it would be perhaps \$200,000. I'm delighted he left his entire estate to the university. He always wanted to do something for education and mathematics for his entire life. I think it's all just wonderful."

European Defense Army Headquarters To Be Outside Paris

PARIS, Feb. 20.—(INS)—A spokesman for Gen. Dwight D. Eisenhower announced today that headquarters for the European defense army will be constructed on a 60-acre site near Rocquencourt, 13 miles outside Paris.

The headquarters will be built from prefabricated one-story buildings. There will be 100 thousand square feet of floor space comprising officers' barracks and billeting for approximately 600 enlisted men.

Offices will be constructed in 18 wings designed to permit easy expansion if needed.

Gen. Eisenhower is on his way to Europe aboard the Queen Elizabeth.

Senator Duff Says Gen. Eisenhower Not Out As Candidate

HOUSTON, Tex., Feb. 20.—(INS)—Republican Sen. James Duff of Pennsylvania said Monday that Gen. Dwight Eisenhower "pos-

itively is not out" as a presidential nominee of the GOP in 1952.

Duff said in Houston that Eisenhower's position as commander of the western Atlantic defense forces does not mean he cannot be the GOP nominee.

But Duff pointed out that if the Republicans expect to win the presidential race next year they will have to stop talking about possible candidates and find a

progressive policy that will appeal to the people.

He said:

"My type of Republicanism is not to find fault with the other side but to get an affirmative policy and let the people know that you believe in it."

He said he would not commit himself at this time to any candidate, but praised Eisenhower.

White Reports On Legislation

In a statement today, General Assemblyman Robert M. White, representing the City of New Castle, makes a report on legislation which has been introduced into the General Assembly.

His statement follows: "Last week your State Legislature started in earnest to decide what new laws and what changes in existing laws are to be made this year."

"Six important bills were acted upon by the House last week. The first related to the establishment of the State Civil Defense organization. It did not pass the House because of a disagreement that arose concerning one of its sections. This bill directed that the local defense director may create mobile units to act during enemy attack in aiding stricken areas. State employees while acting with such units are not to lose their daily wages. All other persons are to receive five dollars a day. This \$5 provision will probably be stricken out and only benefits in case of injury allowed."

Establish Rules
"The second bill gives authority to the Civil Defense organization to establish rules relating to air raid precautions and makes its members immune to liability for injury to person or property."

"The third bill allows the political sub divisions to appropriate money to carry out this program and to borrow money if necessary."

"The fourth bill allows the Commonwealth to make agreements with other states for mutual aid in case of emergency."

"The fifth bill makes all sabotage punishable by death. This bill was also held up for amendment. It was felt that juries would very seldom find anyone guilty of sabotage if they knew the only punishment would be death. So the death penalty will probably be made optional."

"The sixth bill was introduced in the Senate and has passed that body. It relates to balloting by absentee servicemen. This week the House will seek to amend this bill to eliminate members of the Merchant Marine from its provisions. This bill also changes the date of primary elections and as written they will be held on July 24 this year. This is not a desirable date so an amendment is proposed to move it forward to June in future years."

As of February 12 one hundred and fifty one bills were introduced in the House. An additional 100 were certainly introduced last week. There is some notion that the legislature is in recess but such notions are purely wishful thinking on someone's part."

Orlando Lucidore, president, gave a report of the recent trip made by city P. T. A. members to the Boardman school. Boardman, O. Roll call was taken and Mrs. Hazel Meade's 2-1 class won the prize for room representation.

Dr. Thomas J. McFate, local dentist, was introduced and spoke on "Care of the Teeth". In his discussion Dr. McFate stressed preventive measures of teeth decay and emphasized the importance of proper diet for children if they are to grow up with healthy teeth.

He explained how in some cities citizens and professional people are urging water companies to put fluoride in the water, as it prevents decay of teeth. A film was shown and records played that might be used in teaching dental care. A short question and answer period followed the meeting.

A special event is being planned for the March meeting, with Miss Clara Cotton as chairlady and aides being Miss Janet Millison, Mrs. Fornataro, Mrs. Paglia, Mrs.

Stanley Dosdzal, Mrs. Snyder, Mrs. Mangine, Mrs. Joseph Valentino, Mrs. Torsello and Mrs. Thompson.

Delicious refreshments were served by the hospitality committee, consisting of Mrs. Mary Richards, chairlady; Mrs. Rose Roselli, Mrs. Marie McIltrout, Miss Agnes Shepp and Miss Helen Ryan.

Mr. Lucidore announced that S. Glenn McCracken, principal of the Arthur McGill and Highland schools, will be guest speaker of the March meeting.

Hickory P.T.A. To Meet Wednesday

Members of the Hickory township P.T.A. will hold their meeting on Wednesday, February 21, at 8 o'clock. John G. Lamoree, Lawrence county judge, will speak on "The Ideal American and Founder's Day."

A "cake walk" will be a feature of the program. Music will be furnished by several pupils of the schools.

Heroic Mother Saves Children

CHICAGO, Feb. 20.—(INS)—A heroic 31-year-old Chicago mother ignored a fractured ankle and multiple cuts early Monday to save three of her children when two leaped and one was tossed into her arms from their blazing apartment.

Three other children were saved by the father.

Mrs. Myrtis Hall was awakened by smoke as she slept in a second-story bedroom with Talmadge, 10; and Clara, 6. In another bedroom was the father, Harry, 33; and Sandra, 9; Ronnie, 7; Harry, Jr., 3; and Donald, 8 months.

Finding the stairway cut off by flames, the mother quickly smashed a window with her bare hands and leaped 16 feet two the ground. Her ankle was fractured by the impact.

Despite the pain she called to Talmadge and Clara to jump. They did and the mother broke their falls with her body.

Hall led Sandra, Ronnie and Harry, Jr., to a narrow balcony outside the window and sent them crawling along it to an adjacent apartment.

Then he tried to edge along the balcony with Donald in his arms but could not make it and heeded

Mrs. Hall's shouts to toss the infant down to her.

Harry followed the three older children along the balcony to safety.

Warrant Officer Is Honored By Third Army

For his outstanding work as administrative assistant to the Third Army Adjutant General, the Third Army Certificate of Achievement has been presented to Chief Warrant Officer Harry G. Marshall, formerly of New Castle.

Marshall is the son of the late Mr. and Mrs. John Marshall of 828 South Mill street, and his wife is the former Miss Adeline E. Malone, of Wyoming, Illinois.

Warrant Officer Marshall will soon begin a new assignment at Hamilton Air Force Base, California.

What to look for when you buy Window Glass...

1. CLEAR VISION
2. SURFACE BEAUTY
3. REASONABLE PRICE

PENNVERNON WINDOW GLASS has all three to an unusually high degree. It is remarkably free from distorting flaws. Brilliant of surface on both sides of the sheet. And despite its superior quality, costs no more than ordinary window glass. When you need window glass to replace broken panes... ask for Pennvernion. And look for the Pennvernion label.

Making Search For \$60,000 Stolen Fund

QUONSET POINT, R. I., Feb. 20.—(INS)—Belief the money still was on the base led authorities to make a thorough search of Quonset Point naval air base for \$60,000 stolen from the Civilian Credit Union.

Marine guards began checking

every vehicle leaving the base as soon as the robbery was discovered and this led authorities to believe the money may have been cached somewhere inside the installation to wait for a better time to take it away.

Agents from the Providence office of the federal bureau of investigation were ordered to take over the investigation.

Authorities theorized that the robbery was an "inside job" because the safe had been opened

through knowledge of the combination and the office, in the civilian cafeteria building, apparently had been opened with a pass key.

THE CENTRAL IDEA 1054 New Diesels

NEW YORK
CENTRAL
SYSTEM

1. WHAT GOES ON INSIDE one of the new Diesel-electric locomotives that you see heading up New York Central's streamliners or mile-long freights? And what about the smaller Diesels that do the yard switching... or handle branch line service with main line efficiency?

2. EACH IS A POWER HOUSE on wheels. Under the streamlined exterior, compact Diesel engines turn dynamos... feeding smooth electric power into the driving motors. Dependable horsepower that can work round the clock, day after day, with only rare visits to the shop for service.

3. EVER SINCE 1945, New York Central has made new Diesel locomotives an important part of its own system-wide preparedness program. Your Railroad has invested \$140,000,000 in 1054 Diesel units of all types... increasing its Diesel-electric motive-power fleet by 400%!

4. MATCHING NIAGARA! Central Diesels total one-and-a-half MILLION horsepower... equal to ALL the power of Niagara's dynamos! Added to Central's great steam fleet, they're a moving force for Freedom to serve your community and the Nation. And that's the CENTRAL IDEA!

HOW WOULD YOU PICK A RANGE?

by looks? ... cost? ... how modern it is? ... how long it will last without burner replacement? ... how low your cooking fuel bills will be? ... how easily you cook on it? ... how fast things cook? ... how clean it is? ... how cool it is? ... how easy it is to keep clean?

no matter how you judge,
your best buy
in cooking is an
automatic **GAS** range

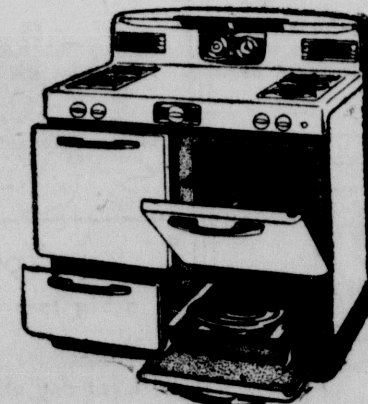

Modern GAS ranges are the last word in cooking efficiency, economy, and enjoyment! Sleek, beautiful exteriors... thousands of heat selections for just-right cooking temperatures... automatic cooking... durability, cleanliness, cooking speed—you can't beat modern GAS ranges for out-and-out quality, speed, convenience!

Take GAS Oven-Cooking! Air-circulated, even heat—heat you can't get in any other type range—gives the same golden-brown done-ness in any part of the oven. With automatic GAS cooking, your dinner is ready, piping hot, at dinner time, even though you've been out all afternoon!

See how superior GAS top-of-stove cooking is! You choose not one out of five or seven different heats—but one out of *thousands*. The exact heat that cooks each food perfectly! Things cook faster with GAS, so your dinner doesn't take nearly as long to prepare!

Wonder-broiling—with GAS Flame Broiling! The kind that makes things extra-delicious—is yours with an automatic GAS range. No smoke worries. You close the broiler door—keep cooking heat inside, on the food, not dissipated into the kitchen through an open broiler door.

Low price, low upkeep, low fuel bills! The low price you pay for a GAS range is usually your final range cost—no replacement of burners is ever necessary. And your low cooking-fuel bills will be a constant source of economy for years!

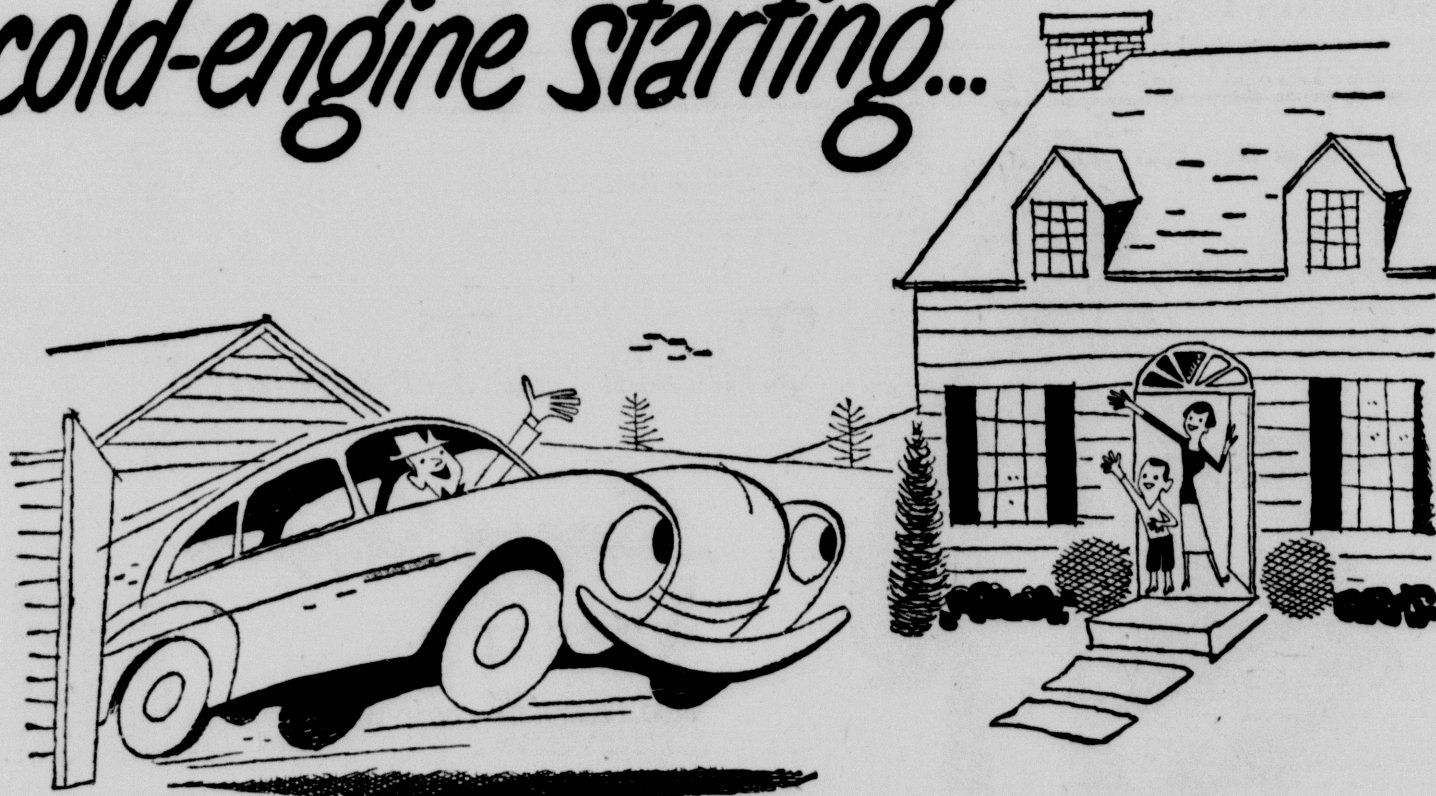

So what's your
logical choice?

Why, an **AUTOMATIC
GAS RANGE!**

Detroit's Automotive Engineers...

say that cold-engine stalling has been a persistent problem for years. Under certain conditions, powerful gasolines required for today's high-compression engines evaporate and freeze moisture out of the air, "icing up" the carburetor and causing temporary stalling. This stalling is practically eliminated by the new Esso Extra Gasoline. (No gasoline, of course, can correct stalling caused by mechanical faults or electrical failure.)

Farm Exports Show Increase

December Exports Million Higher Than One Year Ago

WASHINGTON, Feb. 20.—(INS)—The Agriculture Department reports that U. S. farm exports in December topped those for the same month a year ago by one million dollars.

During December, the department said, U. S. agricultural exports totaled slightly more than 301 million dollars, compared with about 300 million dollars in December, 1949.

But while the value of farm exports was greater last December, the department reports that they were three per cent smaller than a year ago in relation to total U. S. exports.

Total exports during the six months of the 1950-51 fiscal year amounted to slightly more than one billion dollars, including both farm and non-farm products. A year ago, the U. S. shipped only 935 million dollars worth of commodities of all kinds.

The department said that farm shipments amounted to only 29 per cent of total exports last December, compared with 32 per cent a year ago.

On a value basis, the department says that cotton continued to lead the parade of farm exports. But even cotton slipped during December—by eight per cent from a year ago.

Cotton exports in December were valued at less than 98 million dollars, compared with a little more than 105 million last year.

Agriculture Secretary Brannan has urged the UN food and agricultural organization to promote family-type farms throughout the world.

Brannan sent a letter to the FAO at its new headquarters in Rome urging that "every possible effort" be made to encourage member governments to adopt programs to help farmers become owners of the soil they till.

The Agriculture Department says that the U. S. shipped 24 per cent less lard abroad during 1950 than in 1949.

The department list 1950 lard shipments at 233,042 tons, compared with 306,849 tons in 1949. More than 47 per cent of the 1950 lard exports were sent to Europe with Germany getting the lion's share of that.

Construction Work Under Way On State Projects

HARRISBURG, Feb. 20.—(INS)—General State Authority construction projects worth \$63,000,000 were reported under way today at mental hospitals, teachers colleges and other commonwealth institutions.

More than \$14,000,000 worth of construction has been completed under GSA financing, the authority reported.

The GSA said the construction now under way and the completed projects represent the major part of the authority's \$155,000,000 building program.

The bond-financed projects are leased to the state upon completion.

Two-thirds of the GSA funds are earmarked for construction or improvements at mental hospitals and other institutions under welfare department jurisdiction.

Annoyed Builder Curbs Kibitzers

WACO, Tex.—Builder Sam Busby, builder, said he got "just plain tired" of sidewalk superintendents bothering workmen on an office building project. So he erected bleacher seats for the spectators at a safe distance from the construction.

In addition, he furnished them with a complete set of building plans and ice water to wash down the ladders several of them brought to the site.

He told the "superintendents" they could "argue all you want over our plans, but don't pester the workmen."

Dulles Says Russia Seeks Father And Sons Party Scheduled At YMCA Friday

SYDNEY, Feb. 20.—(INS)—John Foster Dulles, President Truman's special representative, warned Monday that Soviet Russia desires to make Japan a "Soviet workshop."

In an extemporaneous address to the Institute of International Affairs before leaving Sydney for Wellington, Dulles said that to Soviet Communism "Japan is one of the world's great prizes."

"The Soviets are able to promise everything," he said. "The Soviets could give them large amounts of raw material, keep industries going and turn Japan into a workshop of the Soviet which would supply all the things needed to enable Soviet Russia to be militarily powerful in the East."

"A combination of the Soviet Union and Japan, if formed, would be so powerful that it could not be resisted in this part of the world."

Speaks As Individual Dulles, who emphasized that he was speaking as an individual and not as representative of the United States government, said that a peace treaty is being considered in the light of Japan's lack of protection against infiltration.

Japan's situation, he said, is "most precarious" as the country has no coast guard and only a meagre police force.

Dulles continued: "If one major link in the chain of islands from the Aleutians to New Zealand should be lost, it would be impossible militarily to hold the other links."

Must Avoid Former Mistakes "The mistakes of the Versailles treaty must be avoided in arranging the Japanese treaty."

"The way to peace with Japan will not be by writing restrictive clauses into the treaty. Restrictions are all right if they are enforced, but who is to enforce them?"

"There was no one willing or strong enough to enforce restrictions against Germany."

"The United States certainly did not feel willing to enforce restrictions against Japan because we do not have the strength necessary for this purpose."

Father And Sons Party Scheduled At YMCA Friday

John Thompson, YMCA boys department secretary and Dave Gatrail, program secretary have announced a father and sons party to be held for Friday, Feb. 23 from 7:30 to 9:30 p.m. in the building.

The evening will consist of participation games, swimming, and refreshments. A feature of the evening will be drawings by cartoonist William F. Kegel, editor of the Ellwood City Ledger.

Those planning to attend the party must register at the Y desk before Wednesday, Feb. 21.

Oak Ridge Tightens Security Measures OAK RIDGE, Tenn.—The Atomic Energy Commission said it is tightening its security ring

around the three atomic plants here. The commission, among other things, has increased its security patrol force and also the number of guards working with AEC contractors. It has clamped down on visitors to restricted areas where the plants are situated.

Beginning February 22, an individual check system of all employees' identification badges will be installed.

B. W. Menke, chief of the security division, described the new security regulations as part of "a continuous AEC-wide program to keep security at all installations consistent with the times."

Peanut Center Of Churchill's Latest Attack

By HOWARD BERRY
(U.S. Staff Correspondent)

LONDON, Feb. 20 — Conservative leader Winston Churchill hopes to turn the lowly peanut into a political weapon today and use it for a new attempt to unseat Britain's labor government.

The conservatives have introduced a bill censuring the government for the vast sums of money it expended in trying to grow peanuts in east Africa in the hope they would be a source of much-needed oils.

The labor government, which has already spent more than 102 million dollars in the attempt, is seeking an additional 16 million 800 thousand dollars for a new, modified peanut-growing plan.

Written Off At A Loss
The original scheme was written off at a loss. Tonight's debate in the House of Commons is expected to be a stormy one, with Food Minister Maurice Webb scheduled to lead off the government's defense.

The bill to be debated, besides asking for new funds, would transfer the peanut—or groundnut as the British call it—growing scheme to the colonial office. The original plan was under the direction of the food ministry.

The labor party "whips" are making a strenuous effort to see that they have their full party-voting strength in Commons when the issue comes up.

However, even if the vote of censure causes the bill to be thrown out, it does not necessarily mean the government would resign and a new general election follow since the peanut-growing bill is regarded as a minor issue.

Prime Minister Attlee, who would make the decision in case of a defeat, reportedly would merely consider it a setback and not resign as it is not as important, for example, as nationalization of the steel industry or other labor party "musts."

Nevertheless if the government is defeated by any substantial majority the possibility of the labor regime resigning can not be ruled out.

DOMESTIC SCIENCE CLUB

With all the Thursday meetings last week one was unintentionally omitted. Domestic Science met in the home of Mrs. Clyde McClung for their monthly meeting. Due to the roads and illness the attendance was small. An interesting program was presented by Mrs. Jesse Nesbitt. She told of John Stotzer who came to this country from Switzerland and now has a successful dairy business and cheese plant at Mineral City, Ohio. His daughter returned to Switzerland and brought back sixty Swiss bells which are worn by the cows on the Stotzer farm. In the summer people come for miles to hear those bells. Mrs. Nesbitt also had Valentine puzzles for group participation.

GIRL SCOUTS TROOP 49

Thanks were received from the Boy Scouts for the Birthday cake given to them. Sandra Eppinger received a pen and pencil set for perfect attendance. This meeting was a Valentine party and refreshments were served. Orders are being taken for Girl Scout Cookies. The course in home making has now been completed and at the next meeting the troop will take up clothing. Interesting posters are being made to show a young girl's seasonal clothing needs.

NEW BEDFORD GARDEN CLUB

The New Bedford Garden Club on Tuesday in the home of the president, Mrs. Lee Zedaker. At noon a delicious tureen dinner was served. Mrs. G. A. Fisher was in charge of the program and presented as her topic, "What I Know About Cotton." Roll call followed. Next month Mrs. Sloan Whitacre will entertain the club, and Miss Faye Wilcox will present the program.

On Wednesday three entries were made at Garden Forum in Youngstown and two ribbons were received. Mrs. Lee Zedaker received a second on her pot of ivy. Mrs. George Dieter received a first on her Valentine arrangement for a shut-in. Five members from here attended the Forum.

P.T.A. MEETING

P.T.A. met in the school on Thursday evening with the president, Douglas Tracy in charge. Mr. Rashid from the Red Cross was introduced and gave an informative talk on the needs and work of the Red Cross. Concluding his talk he showed a film. Mrs. Roy Baynham presented information about having a unit in New Bedford where residents' blood might be typed. A Red Cross class was also discussed. Following the business meeting refreshments were served by Mrs. Wm. Beck. A member of the Pennsylvania Police Force will speak at the March meeting.

NEW BEDFORD NOTES

Mrs. Ben Burgoon has been quite ill at her home and although improving is still undergoing treatment.

There will be a display of things made by the blind of Lawrence County on display in Wiseman's Show Room in the near future, perhaps this week.

Engineers Hear Westinghouse Man Discuss Television

Members of the Mahoning-She-nango Valley Engineers Society heard George B. Saviers, special representative of the Westinghouse Electric Corporation speak on the subject of television, at the monthly dinner meeting of the society in The Castleton, Monday evening.

Mr. Saviers who has been identified with radio and television research and construction over a long period of years, told about the developments in television, and told what may be expected in the future. He also discussed the color television controversy.

The Society has voted to again sponsor an engineering scholarship for members of this year's graduating class at high school, and President James Miles, of the American Cyanamid Co. will speak to the seniors of New Castle high school on the subject at a chapel meeting, March 8.

There were a number of special guests present at last evening's meeting, the attendance being the largest of the year. Among the guests welcomed and introduced was Ebon L. Reid, executive vice president of the Greater New Castle Association.

Auto Fire Calls Union Volunteers

Damage of \$5.00 resulted from a fire in an automobile owned by Donald Champion of 1046 Wilson avenue, Kittanning, Pa., when it caught on fire at the intersection of Grandview avenue and Youngstown road, Monday at 10:30 p. m. Union Township volunteers were called but by the time they had arrived, a passing truck driver had extinguished the flames and their services were not necessary. No action was taken by the department.

TWAS A MISTAKE

PHILADELPHIA, Feb. 20.—(INS)—You could hardly blame Frank Fitzpatrick, a Philadelphia printer for being upset today over his telephone bill for January.

The charges normally run about \$4 monthly for his party line connection. But the charges for January amounted to \$564.02.

Fitzpatrick, naturally, was more than a little disturbed. According

to the statement, he made 41 calls at the regular \$3.15 rate.

But the bill also listed 9,754 "additional messages"—more than 300 daily—which came to \$560.87 with tax.

A spokesman for the Bell Telephone Co. said "it's possible" a billing machine made an error.

Air Force Plans To Call 60,000 Reserves Cancelled

WASHINGTON, Feb. 20.—(INS)—The Air Force on Monday cancelled plans to call up nearly 60,000 reservists after a Senate subcommittee accused the service of hoarding manpower.

The cancellation applies only to individuals to be recalled and does not affect plans to call up reserve units including 12 more groups of the Air National Guard.

The action followed launching by the Senate Preparedness subcommittee of an investigation of possible hoarding of men at 16 Army, Navy and Air Force centers in 11 states.

Overcrowding Charged

The Senate group, in a blistering report on overcrowding at the Lackland, Tex., air base, accused the Air Force of having "greedily" enlisted more of the nation's superior men than it could train in order to keep them away from the Army and Navy.

In announcing the cancellation, the Air Force said that it already had issued orders or was in process of issuing orders to 18,000 volunteer reservists under its plan to recall 60,000 individuals.

All of these are cancelled except those who had received final orders to report for duty, and those who have certain critical specialties such as electronics experts. The Air Force said only a few had received final orders.

Enlistments Factor

The Air Force said the decision "was made possible by the response of voluntary enlistments and re-enlistments."

Individual reservists already in

processing centers will be returned home after processing is completed. They will then revert to inactive reserve status. However, the reservists may elect to volunteer for duty and "if qualified, will be accepted."

The Senate subcommittee, in its report on the Lackland situation, said that it found 69,731 men at the Texas base on Jan. 17 though the installation had a rated emergency capacity for only 27,500 men. Senators said that 5,653 men at Lackland were living in unlighted, dirt-floored tents at the end of January.

The subcommittee broadened its probe to Army, Navy and other Air Force centers because "we don't want any more Lackland situations arising."

Union P.T.A. Will Gather Wednesday

Members of the Union township P.T.A. will assemble in the school on Wednesday evening, with Carrie Jeffrey Roberts, guest speaker.

Senators said that 5,653 men at Lackland were living in unlighted, dirt-floored tents at the end of January.

Founder's Day will be commemorated, with all past presidents of the unit to be honored. Mrs. Forrester Farnington is chairman of the program, with a cake walk to feature the evening's activities. A banner will be awarded to the class having the most parents represented at the meeting.

Refutes Charges That GI's In Korea Not Getting Enough Food

CINCINNATI, O., Feb. 20.—(INS)—General Douglas A. MacArthur, in a letter addressed to a Cincinnati news analyst, today refuted charges "by the American public" that GI's "are not receiving enough food in Korea."

In a solicited statement to Milton Chase, Far Eastern news analyst for a Cincinnati radio station, MacArthur wrote:

"There is and has been ample clothing and food to provide for the comfort and physical welfare of the troops in Korea. The help of the command is, and has been, excellent."

"Because of tactical developments, there have been short periods when elements of the command have been required to conserve their rations. Such incidents occur in every campaign and are unavoidable."

"I desire to emphasize that there is no foundation for concern regarding the provisions made for the care of the soldiers. This is a matter to which I, as well as my field commanders, give constant attention."

Chase formerly was attached to MacArthur's headquarters in Tokyo.

Rotary Honors Boy Scout Troop

Anniversary Week
Special Occasion

New Castle Rotary Club honored its scout troop at the weekly luncheon meeting in The Castleton, Monday noon, with troop and county scout leaders being special guests.

Keith Van Fossen, Scoutmaster of the Rotary Troop, spoke briefly on the accomplishments of the troop, and thanked the club for the interest it has shown in the troop and scouting in general down through the years. However, he stated, financial backing is not all there is to scouting, and the attendance of members of the troop committee is also an important factor in building troop morale.

Hildebrand Speaks
He invited members of the club to attend the parents night program arranged for next Tuesday evening at the troop's meeting place in Taggart stadium.

J. C. Hildebrand, county scout executive, and Rotarian, was introduced and praised the New Castle Rotary Club for its support of scouting. New Castle Rotary, he stated, was the real founder of Boy Scouting in New Castle, sponsoring two troops, and its interest led to the establishment of the Lawrence County Council and the first Boy Scout Camp.

Serving on a Scout committee, however, he pointed out, means more than just plunking down a dollar for a committee card. It means service to the troop and influence.

Faith and work are two factors needed in developing youth for good citizenship. "I am more concerned about people than I am about things," he said, "because people control things. We should do everything possible to teach youth respect for law and order." A person's life, he stated, changes every three years. The age from 12 to 15 years, is when youth begins to develop most, those characteristics which are going to influence his future life. It is the gang period, when a boy becomes identified with some group of boys. It is this principle on which scouting is founded. The

nine to 12 year age, precedes it, and cub scouting is designed to fill in this period, leading to the scouting age. The 15 to 18-year age is the romantic period, when his thoughts turn to girl, and job. The following three-year period 18 to 21, is the freedom period when he accepts the freedom to make choices about his future. If he makes the wrong choice, someone has slipped along the line of development.

In conclusion, he urged everyone to make sure that the influence he is exerting on youth is the right one. You might be the ideal and example of some boy, and it should be the right example, he stated.

SAVES BOY'S LIFE
BROWNSVILLE, Pa., Feb. 20.—(INS)—A 19-year-old Brownsville youth today told how he swam several hundred feet in the ice-chilled Monongahela river to aid four teen-agers whose rowboat had overturned.

Bernard Smigovsky said he was sitting on the bank when the accident occurred yesterday. He quickly stripped and then swam to where the four lads were paddling about the overturned craft. He helped right it and then towed the boat and its shivering occupants to shore.

Concerning the Work of

Dr. Hyman J. Appelman

Internationally Known Evangelist for the

CHRIST FOR GREATER NEW CASTLE CRUSADE

CATHEDRAL AUDITORIUM

Feb. 26 to March 18, 1951

"It was our privilege to have a part in the Evangelistic Campaign of Dr. Hyman Appelman in Los Angeles . . . His methods are quite simple and are devoid of all tinfair and the sensationalism which has brought so much of the evangelism of America into disrepute."

Dr. J. Vernon McGee, Pastor,
Church of the Open Door, Los Angeles, Calif.

"There are few men on the American evangelistic platform that I would willingly and whole heartedly cooperate with as I would Dr. Appelman. He is a man of God, raised up for this hour in America . . . He is a man of prayer, leading the people by his example, being present in every prayer service."

Rev. Allan W. Wickman,
Evangelical Covenant Church, San Diego, Calif.

"He is a man of very fervent spirit, and God has given him a very remarkable utterance. . . . He is a man who believes what he preaches and this naturally affects the manner in which he presents the truth."

Dr. Harry Ironside (deceased),
Former Pastor Moody Memorial Church, Chicago.

"I consider Dr. Appelman one of the outstanding, powerful, dynamic, spirit-anointed humble preachers of the Gospel on the platform today. God has marvelously anointed him with an insight into the Scriptural truth and has given him holy boldness to declare it. He is a man who realizes his utter dependence on the Holy Spirit and therefore his ministry is steeped in prayer."

Rev. Floyd B. Johnson,
Los Angeles Evangelistic Center, Los Angeles, Calif.

"I don't know of anyone who preaches with more God-given passion for the souls of men and of the power of the Holy Spirit than Hyman Appelman. He is genuinely sincere and so Christ-like in his humility. As I have known him over the years, money has always been his least concern; souls are first."

Rev. George A. Palmer, Director
Morning Cheer Broadcast, Philadelphia.

" . . . He has only one theme—he preaches that theme from every angle. "Jesus Christ and Him Crucified" is the center of every message. Hyman J. Appelman has done more to restore New Testament evangelism to its proper place in the hearts of the people than possibly any evangelist since the day of Sam Jones and Billy Sunday."

Dr. R. P. (Bob) Shuler,
Trinity Methodist Church, Los Angeles, Calif.

"From the Commencement, Dr. Appelman impressed by his humility, his obvious sincerity, and the power with which he spoke. It is impossible to describe adequately the fervor, the dramatic intensity, and the moving eloquence with which he preached."

Eric J. Daley, Editor of "New Life",
Australia's Christian Weekly Newspaper.

Love-Theft Suit For \$100,000 Filed In Connecticut

BRIDGEPORT, Conn., Feb. 20.—(INS)—A beautiful Connecticut socialite today faces a \$100,000 love-theft suit brought by the ravishing blonde wife of a heating contractor originally called to a secluded Fairfield, Conn., mansion to repair a faulty furnace.

The suit was filed in Bridgeport yesterday by Mrs. Harold A. McLaughlin, expectant mother and

wife of a 28-year-old heating contractor.

In her suit, Mrs. McLaughlin, a Norwalk, Conn., hospital nurse, charged Mrs. Sylvia Lovegrove, 35-year-old widow, with the theft of her husband's love.

Mrs. McLaughlin's suit followed a raid by private detectives and Fairfield police last Feb. 12 on Mrs. Lovegrove's secluded mansion. She and McLaughlin were arrested.

The blonde nurse said her husband shocked her early last month when he told her he had been seeing a "rich widow." Mrs. Lovegrove, a member of the exclusive Fairfield County Hunt Club, recently recovered from a break-

down following the death of her husband three years ago.

Mrs. McLaughlin said her husband told her he met the "rich widow" when he went to her mansion to repair a furnace.

The legal suit involves two counts, one for alleged alienation of affections and the second "criminal conversation." A breach of the peace charge filed against Mrs. Lovegrove, mother of three children, and McLaughlin was continued until Feb. 26 when the case

was called in Fairfield Town court yesterday.

Mrs. McLaughlin claimed that Mrs. Lovegrove "came to the door in her nightgown" the night of the detectives' raid and that her husband appeared behind the socialite.

In Latin America there are between 3.5 billion and four billion coffee trees, nearly all of which stem from a single plant smuggled across the Atlantic to Martinique in 1723 by a young French naval officer named Gabriel M. de Clieu.

In 'Once Upon A Time'

At Mahoning school, the pupils of 6-202 class presented a play entitled—"Once Upon A Time"; this story tells how "the old woman that lived in a shoe" entertained the king.

Reader was Marie Pollio; "Old Woman", Patty Hink; "baker", William Ford; Whizzer the magician, Gary Shaffer; George, Walter Scott; Peter Rabbit, Edward Lalam; the hare, John Porter; the white rabbit, Karen Thomas; Alice in Wonderland, Mary Lou Oddi; Pinocchio, Kenneth Turk; Heidi, Bernice Zarilla; Mr. Popper, Robert Lee; Christopher Robin, Robert Zidow; Mary Poppins, Donna Muntean; Robin Hood, Andrew Domenick; Cinderella, Linda Lynn; the children of the old woman, members of the 6-202 class.

In charge of scenery and costumes, Janet Mosely, Nancy Kilmer, and Gary Shaffer. Scenery prepared under the supervision of Miss Jane Patterson.

During one of the interims, Marie Pollio gave a violin solo. The music was led by Miss Jean Weber. The play was under the direction of Mrs. Harriet Book.

Brownies No. 59 Will
Visit Mayor's Office

On Monday evening, at Mahoning school, the Brownie Scout Troop No. 59 assembled with President Anita Conti in charge. The Brownie Promise was given, and scout songs were sung at the opening exercises.

Antonette Ezze read minutes of last meeting and Rosaline Maiorana gave her report.

Troop 59 has commenced writing a book, which is entitled "A Memory Of New Castle". Every month they will take a trip to different places in the city to study about their city. The first trip will be on February 26 to visit Mayor John Haven. After the book is completed it will be placed in the public library.

Games were played during the balance of the evening.

Brownie leaders are Mrs. Eulane

MARKS BIRTHDAY
Scotty Eversole, little son of Mr. and Mrs. Robert Eversole, was pleasantly surprised Friday evening at a party at his home in observance of his fifth birthday anniversary.

Games and contests were the diversions. Scotty received many nice gifts. At the conclusion of the activities the honor guest's mother, assisted by Mrs. Leo Carson and Mrs. Leland Eversole, served delicious refreshments to 17 guests. A valentine motif was carried out in the lunch theme. Out of town guests were Scotty's maternal grandmother, Mrs. Lester Wood, and Mrs. Carson of New Castle, Mrs. Leland Eversole of West Pittsburgh and Mrs. Nellie Boone, Mrs. Keith Hazen and Mrs. Joseph Lacava of Ellwood City.

WAMPUM NOTES
The Misses Elizabeth, Ina and Ella Kanagy of New Wilmington and Mr. and Mrs. David Kanagy and son Jimmy of New Castle spent Sunday at the home of Mr. and Mrs. Elmer Kanagy.

Miss Thelma Frank of New Castle and Mrs. Daisy Rutter and daughter Miss Nancy of Ellwood City visited with Mrs. Lenore Stapp of Clyde street Sunday.

Mrs. H. W. Marshall and daughter Janice were New Castle visitors Saturday.

The Girl Scouts will meet on Thursday evening after school in the music room of the local high school. The meeting was changed from Wednesday night to Thursday night because of a scout leaders meeting in Ellwood City.

E. T. Algier of Kay street, who was recently discharged from the Jameson Memorial hospital, New Castle, is still quite ill at his home.

W. H. Grinnen, recently discharged from the Jameson Memorial hospital, New Castle, where he had been a patient for the past several weeks because of a heart attack, is slowly improving at his home on Kay street.

F. L. Herbert of Main street, who is confined to the Jameson Memorial hospital, New Castle, with pleurisy, is reported slightly improved.

Barry Nelson And Teresa Celli Married

BOSTON, Feb. 20.—(INS)—Honeymooning in Boston, where they were married yesterday and where the bridegroom opened last night in "The Moon Is Blue" are Barry Nelson and his bride, motion picture actress Teresa Celli.

Miss Celli arrived in Boston via New York from Hollywood at 2 p. m. Within an hour and a half they obtained a marriage license and a waiver of the five-day law, and were married by Charles Mackey, justice of the peace and employee of the marriage license bureau at city hall.

At 4 p. m. Nelson was back at the Wilbur theater for a rehearsal of the play. At 8 o'clock he met with newsmen, and at 8:30 p. m. was on stage when the curtain went up for the play.

TYLER, Minn.—Coincidence: the village treasurer reports that liquor sales at the municipal store dropped \$3500 in 1950, while water sales by the Water Works department rose \$258 over 1949 and the Municipal hospital's business increased substantially to \$92,274.

New Hi-Lander Theatre To Open

New Theatre On Highland Avenue Opens Wednesday

Announcement was made today by the proprietors of the new Hi-Lander Theater, located on Highland avenue, at the north end of the city, that work on the construction of the theater is now completed, and the grand opening date has been set for Wednesday evening.

The doors of the box office will open at 6:30 o'clock, but the first show will not start until 7:30 o'clock. This will give patrons and friends an opportunity to look about inside and inspect the interior fixtures of this beautiful new theater.

Building Fireproof

After the opening date, the shows will start each evening at 5:30 o'clock, except Saturday and Sunday. On Saturdays, the doors will open at 1 o'clock, and on Sundays at 2 o'clock.

The building, which is of modern fireproof construction throughout, has been in the course of construction for the past year, but material shortages and inability to secure delivery of needed materials has delayed its completion.

Even the drapery and hangings on the inside of the building are made from flame-proof materials, assuring the utmost in safety. The wall hangings are of red velvet and gold figured damask, while the stage curtain is a solid gold color. The color scheme in the auditorium is red, blue, and gold, with a blue ceiling. In the lobby will be located a well-stocked candy concession, and just off the lobby at the entrance, commodious rest rooms.

One of the features will be the seating arrangement. These have been placed so that everyone has a comfortable view of the screen without stretching and straining.

Modern Seating

An added attraction about the seating arrangement is that the seats are the new superbly comfortable American Bodiform Retracting theatre chairs, made by the American Seating Company, of Grand Rapids, Mich. They are designed to fit the contours of the human body, and retract easily to make room for people passing in and out, without forcing the seated person to rise to permit them to pass. The backs are compound-curved like the human back, and fold automatically to the three-quarter vertical position when the occupant leaves. They are also rubber mounted so they do not squeak. They are suspended from two self-lubricating bearings on each side, making for silent and smooth motion, and no foot action is needed to retract the seat.

Other Fine Features
Two other features have been installed, which will meet with public approval. These are a smoking room and a "cry room,"

which are located on the second floor. Here, those wishing to smoke, while waiting, may go and enjoy themselves. Mothers can take their fussy babies to the "cry room" and look after them. It will be equipped with cribs where the children can be placed and a baby bottle warmer.

The equipment in the projection room is the very latest Simplex equipment, and the screen is perforated giving glare-proof vision. An indirect lighting scheme is carried out in the interior, with cove lighting placed just below the ceiling's edge. Acoustic plaster has been used in the ceiling to soften the noise in the auditorium.

The Hi-Lander will be operated by Joseph Giorio and John Favorite, who operate the "Blue Sky" drive-in theater, on the Ellwood City-Zelenople road; and Albert R. Tate and John A. Winck, who operate a drive-in theater on Route 51, near Beaver Falls.

Their experiences in theater operation have been carried out in all of the fixtures and styling, making it one of the most modern theaters in this section.

The policy of the theater will be to run pictures immediately after they have been shown in the downtown theaters.

Captain Knight And Tame Eagle Here Thursday Eve

Capt. W. C. R. Knight, and his traveling companion, boon friend and fellow associate, "Mr. Ramshaw," will be guests of the New Castle Executives club at their monthly dinner meeting in the Castleton, Thursday evening, at 6:30 o'clock.

It will not be necessary to set a place for "Mr. Ramshaw," for he is a stately Scottish Golden eagle. A few chunks of raw meat might not be amiss, but Capt. Knight prefers to attend to "Mr. Ramshaw's" feeding himself.

They will appear in an all-color film, "Meet Mr. Ramshaw," as seen through the sharp eyes of "Mr. Ramshaw" and Capt. Knight. The captain and his trained eagle have travelled over 250,000 miles on their globe-trotting adventures, during which time they have entertained many distinguished audiences.

The program, much out of the ordinary, is one which will be greatly enjoyed by the Executives club members and their wives.

New Taxes May Go Into Effect Early In June

By **RAYMOND WILCOVE**
(L. N. S. Staff Correspondent)

WASHINGTON, Feb. 20.—Higher individual corporation and excise taxes may go into effect June 1 as a result of a "speed-up" planned by the House Ways and Means committee.

Chairman Doughton (D) N.C., said tax hearings will probably conclude March 16 and the committee will then go into executive session to work out a bill.

The committee has received requests from 200 persons to testify on President Truman's ten billion dollar tax increase, but only about 120 of these are expected to appear. About 100 individuals want to testify on the President's request for a three billion dollar boost in excise taxes.

Report By Mid-April

If hearings are completed by March 16, the committee should be able to report out a bill and obtain House passage by mid-April. This would leave another six weeks for the Senate to act upon the measure, for conferees to reach agreement, and for the measure to get to the White House.

The administration is expected to urge that tax increases be put into effect almost immediately upon enactment to prevent loss of revenue and a buyers' rush which is almost sure to develop as passage nears.

Although the President and his representatives had urged the committee to report out a "quickie" tax bill, earlier indications have been that the measure could not be enacted before July 1 at the earliest.

Cannot Be Retroactive

Since the excise tax rises cannot be made retroactive and Congress is not expected to make individual income levies retroactive, considerable revenue will be saved if the tax hikes go into effect a month earlier.

The committee is expected to reject the President's request that his tax program be enacted in two installments, mainly, a "quickie" bill to raise ten billion dollars without delay, followed later by a second bill to raise the remainder

of the anticipated 16.5 billion dollar deficit for the next fiscal year. The President has expressed dissatisfaction with the committee's decision to canvass the entire revenue field at its hearings because it indicated that speedy enactment of a tax bill would be impossible.

However, if the committee can hold to its schedule, which Doughton admitted is tentative, a tax bill may be enacted well in advance of what had been expected on Capitol Hill, if not at the White House.

May Have Clue To Four Missing In Plane Crash

YOUNGSTOWN, O., Feb. 20.—Two pilots said they were certain a piece of propeller found near Geneva, O., was from a light plane that disappeared with its four occupants November 4.

The 32-inch propeller section was discovered on the shore of Lake Erie by two youths Sunday. It apparently had been washed up from the lake.

The missing Beechcraft Bonanza plane was enroute to Cleveland from Sharon, Pa., at the time of its disappearance. Aboard were Stanley C. Dunbar, 29, the pilot, of Sharon; his wife Barbara, 28; C. Richard Johnston, 26, of Youngstown, and his wife, Annabelle, 26.

U.S. Population Is Now 153,085,000

WASHINGTON, Feb. 20.—The Census Bureau estimated today the population of the United States, including members of the armed forces overseas, totaled 153,085,000 on January 1.

That was a gain of 1,953,000 in the nine months since the 1950 census made as of last April 1.

Try And Stop Me

By **BENNETT CERF**

Two colleagues had celebrated their team's football triumph too copiously, and were driving home at midnight in rather erratic fashion. For miles, their road paralleled the tracks of the Chicago and Northwestern Railroad. Suddenly a passenger train rumbled by them going on in the opposite direction. The driver commented, "Didja notice the every house in that village we just passed was still lit up?" "Not only that," added his passenger, "but the first house was on fire."

W. Somerset Maugham, ever courteous, had a hard time telling an old friend exactly what he thought of said friend's latest pot-boiler, but finally solved his dilemma by writing, "I found your novel invincibly readable." Far from taking offense, the old friend had Maugham's cryptic comment quoted in a series of advertisements.

BROKEN BONES OR MINDS
Grandma fell on the front steps and broke her leg. That meant a long time in bed.

The bone healed after awhile and she was as well as ever. That was one kind of accident.

Grandma had an accident. Something happened to his brain. His mind was damaged. It could not operate properly. He did not get any better. He required even more care than Grandma did with her broken leg. He was "hard to get along with."

People said that he was mean and stubborn and a lot of other things.

They did not know about his accident. They thought that he had a bad disposition.

Grandma got good care but he did not.

Perhaps we have a few things to learn yet.

His Inventions Aiding Doctors

CHICAGO — Kenneth Root of South Pasadena, Calif., has invented more than 500 devices to aid the medical profession, according to the Journal of the American Medical Association.

Root developed these inventions in his home workshop. His own choice as best of the many useful instruments he has perfected, the Journal said, is a reversible eye magnet to extract metal objects from the eye without surgery.

Root now is working on a device he hopes will aid victims of crippling infantile paralysis.

German Thieves Get Scrap Metal

FRANKFURT, Germany—Shortage of raw materials sorely needed for defense has caused a wave of scrap metal thefts in Western Germany.

German police records list thousands of thefts of scrap brass, tin, zinc, copper and lead. The thieves are spurred by rising prices offered by scrap dealers. Even the youngsters are getting into the mad hunt for metal. Police blame most minor thefts on children, some as young as seven years. They say the children often are encouraged by their parents.

To Call 9,404 Draft Registrants For March Examination

HARRISBURG, Feb. 20.—(INS)—State Selective Service headquarters has ordered six main recruiting stations to summon 9,404 draft registrants for pre-induction physical examinations in March.

Approximately 5,500 will be called for induction in June, according to Director Henry M. Gross.

The March quota of 5,657 will be drawn from an 18,000 backlog of eligible draftees, Gross said, and those passing the March pre-induction physical will be placed in the draft pool.

Nationally, 80,000 men will be called into military service in March.

All examinations will be completed by March 16, according to Gross.

Altoona will supply 580; Erie, 530; Harrisburg, 1,419; Philadelphia, 3,356; Pittsburgh, 2,473; and Wilkes-Barre, 1,046.

May Set State Week For June 28, July 4

HARRISBURG, Feb. 20.—(INS)—Legislation which would fix Pennsylvania week observances between June 28 and July 4 each

year and prohibit any connection with politics is before the Senate state government committee today.

The sponsor, Sen. Joseph J. Yosko (D) Northampton, said the proposal was prompted by what he described as a political speech last fall by then Gov. James H.

Duff in a campaign for the U. S. Senate.

If Yosko's proposal would be adopted, each Pennsylvania week would open with appropriate ceremonies at Fort Pitt at Pittsburgh.

Soft Drinks Tax Being Considered

WASHINGTON, Feb. 20.—(INS)—The House Ways and Means committee considered today taxing away entirely the already disappearing nickel soft drink.

A tax on soft drinks would be a new source of revenue, and Secretary of the Treasury Snyder has estimates of one-cent-a-bottle levy would bring in an annual 280 million dollars.

Rep. Eberharter (D Pa.) said today he will bring the matter up when the 25-member group begins closed-door consideration of President Truman's tax recommendations.

The committee is now holding public hearings on the president's request for 10 billion dollars in new taxes.

Neither the president nor Snyder has recommended a tax on soft drinks, but members "interest has been aroused by the administration's recommendations for stiff increases in the excise levies on liquor beer and wine."

New Wilmington Kiwanians Hear Freedom Speech

Members of the New Wilmington Kiwanis club heard a talk on "This Is Our Problem," by Herbert Engstler of the Packard Electric company of Warren, O., at the club's regular weekly dinner meeting Monday evening.

Mr. Engstler's talk was a Freedom forum presentation, with the theme of socialism, communism and taxation. The talk dealt with better understanding of the American way of life.

He listed four objectives of the Freedom Forum, which was organized at Harding college, Ark., in 1949. These objectives are:

1. Identification of Socialism and Communism.

2. Point out superiority of American way of life.

3. Supply facts to understand American way of life.

4. Preserve American way of life.

Mr. Engstler described how one top socialist worked his way into the department of interior in this country and was mainly responsible for the government control of power in several of our states.

Paper Drive
Kiwanis club paper drive will be conducted next Monday evening, it was announced at the meeting. Persons should have their paper tightly bundled on the curb in front of the house or on the porch with the light lit. All paper should be out by seven o'clock to insure pickup by the club.

All-Scout tureen dinner will be held March 2 at the New Wilmington U. P. church. A director's meeting will be held Wednesday evening, Feb. 21, at the home of H. B. Fowble.

A. F. Of L. Council To Meet Tonight

Court House

To Repair Roof As Emergency

Winter Ravages Does Damage

County commissioners on Monday decided to have repairs made to the court house roof as an emergency measure.

The heavy snow and ice of the winter has sprung leaks in several parts of the roof and the plaster inside is suffering. Court room No. 1 is in bad shape. Judge John G. Lamoree's office has leaks and a number of other leaks have done damage.

The Castle Roofing company is to start work on the roof immediately. Later the commissioners expect to run steam pipes up through the down spouting, thus insuring no ice forming next winter.

SENTENCE COURT

Wednesday and Friday have been set as sentence days by Judge John G. Lamoree. This will permit a number of defendants to get in and get their cases cleared before the grand jury meets.

School Boys Vote For More Food

LONDON—What 30 pupils of Humphrey Perkin's School in Barrow-in-Soar, England, want for dinner was the subject of a recent ballot there. Pupils voted on a list of 16 main courses, 12 vegetables and 30 desserts. First place went to cheese pie. Of vegetables, potatoes led the list and cabbage trailed. Fruit flan topped the sweet course, while stewed figs and Bakewell tart rated only one vote apiece.

Half the school wanted ice cream and 20 boys voted: "We want more."

Newsman Tells His Own Success Story

Throughout the years there have been numerous success stories of how this man or that man started from nothing and finally achieved prosperity. But the best of all success stories is where a man in a run-down condition finally gets to where he feels wonderful again.

William Bogard, newspaper reporter in Sulphur Springs, Texas, has such a story to tell. Yes, now that Mr. Bogard is taking HADACOL, he says, "I wish I could tell my story to every man and woman in the country who is now suffering as I was suffering."

Mr. Bogard was suffering a deficiency of Vitamins B1, B2, Niacin and Iron, which HADACOL contains.

Here is Mr. Bogard's own statement telling how HADACOL helped him:

"Two years ago, at age 40, I was convinced that nothing remained for me in life. The most encouraging words I ever heard were: 'Maybe you will get straightened out after a while.' The only thing that really mattered to me was how I felt and the fact that my apparent decline had brought my many dreams and aspirations in total ruins before my feet."

"I heard and read many stories and testimonials concerning HADACOL, but, unfortunately for me, I didn't take any of them seriously. I considered these testimonials to be from fictitious people with imaginary ills who talked solely for money. How wrong I was! In spite of my wariness, I decided to give HADACOL a try. I took great care that no one knew I was taking it because I feared their ridicule."

"I took three bottles of HADACOL before I began to 'feel' its effects. After that, my progress was steady and sure. My appetite picked up. I not only ate at meal time, which I had not been doing before, but I enjoyed in-between-meal snacks of delicacies which I had long since forgotten."

"I wish I could tell my story to every man and woman in the country who is suffering as I was suffering; I wish I could let them know and make them believe that what I say is all truth and none fiction."

Remember HADACOL is sold on a strict money-back guarantee. And so inexpensive. Trial-size bottle only \$1.25. Large family or hospital size, \$3.50. If your druggist does not have HADACOL, order direct from The LeBlanc Corporation, Lafayette, La.

Senator Duff Says Administration Must Cut Budget

HOUSTON, Tex., Feb. 20.—(INS)—Sen. James H. Duff (R) Pa., insisted last night that the Truman administration must pare a "whole range of social experiments" in order to meet the huge defense budget.

Duff asserted that the President had given Congress "a fat-packed budget completely out of keeping with his promise of rigid economy."

Addressing the Republican Women's club of Houston at a Lincoln day dinner, the Pennsylvania senator said:

"This country cannot maintain financial solvency if it must make defense preparations of the greatest order and at the same time continue a whole range of social

experiments running into billions. "Those experiments have not and cannot be justified at a time when the economy of the country is straining and groaning under the vast expenditures now needed for vital defense purposes."

Duff continued: "Every item of fat must be pared. At a time when every citizen is being called upon to make sacrifices it is imperative that the government should follow the same example."

The senator, in a third of a series of speeches setting forth his policies, said the Truman administration in the past five years had spent in excess of \$214 billion, or \$46 billion more than all previous administrations put together.

Special Probe Is Suggested

HARRISBURG, Feb. 20.—(INS)—A special investigation of "suggested wide spread irregularities" by public officials is the goal today of a resolution before the Senate state government committee.

The resolution states that "recent publications of local and state-wide distribution have suggested wide-spread irregularities and wide-spread violations of various laws of the Commonwealth in the conduct of public trusts by elected public officials."

It is emphasized that "continuance of this type of publicity will serve as a deterrent in the building of unity among our peoples and, further, serves to create a distrust and abusive attitude towards all elected officials which

Housework Easy Without Nagging Backache

When kidney function slows down, many folks complain of nagging backache, loss of pep and energy, headaches and dizziness. Don't suffer longer with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. While often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

in turn destroys the confidence of the people in their elected officials and as such in our form of government."

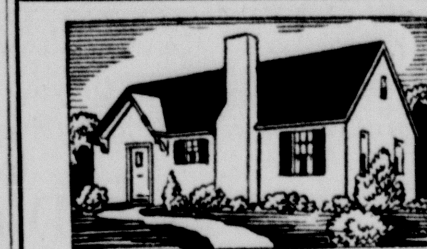

A nine-member committee backed by a sufficient appropriation to pay expenses including salaries of investigators is suggested in the resolution which needs the approval of both the House and Senate.

The resolution is sponsored by Senate minority leader John H. Dent, of Westmoreland, and Democratic Senators Eustice H. Bane, of Fayette, and William J. Lane, of Washington.

Lodge Defends His Measure On Sending Troops

By WILLIAM THEIS
(U. S. Staff Correspondent)

WASHINGTON, Feb. 20.—Sen. Lodge (R) Mass., denied today an administration charge that his compromise European defense resolution would delay sending American troops to Western Europe.

This criticism was voiced by Sen. Connally (D) Tex., chairman of the Foreign Relations committee, who announced the draft of a counter-resolution which would merely approve the dispatch of "additional forces" to Gen. Dwight D. Eisenhower.

Senate GOP leader Taft, most influential opponent of a "blank check" troop resolution, said Connally's proposal is "unsatisfactory" to him. The Ohio Republican said it would not give Congress control over the situation.

Answers Criticism
Lodge told reporters his proposal answers "all criticism" of the program to send American ground forces to Europe.

He said that it:

1—Eliminates any possibility that a "vast land army" would go to Europe in advance of actual war. His resolution puts both House and Senate on record approving the commitment now of a "limited number" of U.S. troops to serve as a "minor fraction" of a defense force.

2—Provides that the joint chiefs of staff must "certify" that each such assignment is essential to American security. Lodge stressed that the joint chiefs thereby would not merely "take orders from the commander-in-chief."

3—Creates a permanent joint committee on the North Atlantic treaty, to function like the joint atomic committee. Lodge regards his as a "control for the future," as would be the certification process.

Connally said that Lodge's idea would "greatly delay matters" and "further discourage our European Allies."

But Lodge replied: "My resolution will not hold up sending any troops to Europe. This could be passed by the House in three days."

The Armed Services and Foreign Relations committees arranged to hear a series of testimony witnesses today from groups including the American Peace Crusade, the Progressive party and the National Council for Prevention of War.

Major Alexander De Seversky, noted air power advocate, was called to testify this afternoon at the request of Sen. Wherry (R) Neb. Gov. Thomas E. Dewey of New York is expected to wind up the hearings as a witness in favor of troop commitments Friday.

Ballet Russe Here Thursday

Reservations for the Ballet Russe de Monte Carlo, scheduled for Thursday night February 22 in the Cathedral indicate a crowd will see the performance.

Mrs. Mildred McClelland, executive director of the Metropolitan Concert Guild said today the advance sale has been satisfactory but that the huge seating capacity of the Cathedral still would accommodate many more.

The ballet is being brought here by the Metropolitan Concert Guild but it is not a part of the regular season series. The membership tickets of the Guild do not include a seat for the ballet. Tickets for this must be purchased either in the Guild office in the Castleton Hotel or at the door Thursday night. The show opens at 8:30.

Sergei J. Denham is the director of the ballet with Paul A. Strauss conducting. Included in the cast are such famous dancers as Alexandra Danilova, Frederick Franklin, Leon Daniellian, Nathalie Krassovska, Oleg Tupine, Nina Novak and other stars of the field of terpsichore.

Outlines Plans For Ladies Night

Samuel A. Mooney, general chairman of the PMTA Ladies' Night dinner outlined plans for the dinner Monday night at the dinner meeting of the Lawrence County chapter in The Castleton hotel.

The annual Ladies' Night dinner will be held Saturday night March 10 in the Cathedral. Tickets for the dinner are going rapidly and it is estimated a crowd of about 750 will be present.

The speaker for the evening will

be Cal D. Johnson of Washington, D. C., a former congressman from Illinois. A floor show has been booked, and favors for the ladies arranged.

Truck operators from adjoining counties will be present as will state officers of the PMTA from Harrisburg.

Bill To Increase Teachers' Salaries Is Before House

HARRISBURG, Feb. 20.—(INS)—The first move to gain higher salaries for Pennsylvania's 60,000 teachers appeared in the House, Monday night.

Republican Reps. W. Stuart Helm, Armstrong, and William Z. Scott, Carbon, sponsored a bill which would raise the starting pay from \$2200 a year to \$2400 with annual increment up to 10 years for teachers holding college certificates and up to 12 years for those holding master degrees.

The measure has the backing of the Pennsylvania State Education Association.

Considerable increases, ranging as high as \$3,000, are asked for county and district superintendents, their assistants and principals.

Christ Lutheran Service Wednesday

Rev. H. D. Poellot, pastor of Christ Lutheran congregation, has chosen "The Price of Willing Surrender" as his theme for the pre-Easter service Wednesday, February 21, at 7:30 p. m. This will be the third in the sermon series on "The Price of Redemption".

Mrs. Hilda Klammer will serve as organist for the service to be conducted in the church.

Police Official Denies He Took Gifts From Rosen

PHILADELPHIA, Feb. 20.—(INS)—Assistant Police Superintendent George Richardson denies that he ever accepted any gifts from Harry (Nig) Rosen, former Philadelphia numbers banker who appeared before the Kefauver crime committee in Washington yesterday.

Rosen told the committee that between 1939 and 1941, he took Richardson, then a detective captain, to New York night clubs, shows and prize fights and presented him with expensive neckties and shirts.

In Philadelphia, Richardson said, "I deny everything," and offered to go to Washington at any time to testify to that effect.

The Quaker City police official testified before the Kefauver committee last October that he "ran Nig Rosen out of town" in 1935.

Richardson presented a letter he wrote in 1949 to Daniel P. Sullivan, operating director of the criminal commission of greater Miami, Fla., describing Rosen as a "notorious kingpin of gangsters."

All-American Sherm White, Other Long Island Stars Admit "Fixes"

Latest Expose In New York City Leaves Floor Fans Dumbfounded

By CHARLES EINHORN
(International News Service Sports Writer)

NEW YORK, Feb. 20.—Three Long Island University basketball stars—one of them an all-time all-American great—were charged with accepting bribes and placed under arrest this morning after night-long grilling.

Latest to be caught in the New York gambling fix, biggest college sports scandal in all history, were:

Sherman White, LIU all-American forward and the nation's leading point-scorer; Adolph Bigos, team captain and winner of six battle stars in World War II, and Leroy Smith, another of the team's great stars.

Admit Guilt

They were formally booked at police headquarters soon after District Attorney Frank Hogan announced that they had admitted accepting bribes to "shave points" in their team's games.

Linked With CCNY Expose

The district attorney also revealed that the Long Island University players—who now join others from Manhattan College and College of the City of New York in the sweeping scandal—worked with the same men who fixed CCNY games.

The latter, Salvatore Solazzo, an ex-convict, and Ed Gard, former LIU player, were arrested Sunday with four others in the CCNY fix case.

The Long Island University players went under questioning at 4:30 yesterday afternoon and finally had spilled their story shortly before 5 o'clock this morning.

Announces Confession

The district attorney announced the confessions soon thereafter and revealed that Bigos was the first to break down.

He said that a fourth person who was questioned was called in only for the aid he could give and would remain unidentified.

The three Long Island University players, Bigos, 25-year-old team captain from Perth Amboy, N. J.; White, 25, from Englewood, N. J.; and Smith, 21, from Newark, N. J.—all seniors—were the backbone of one of LIU's best teams of recent years.

White Big Star

White, a lanky 6-foot 7-inch forward, was the particularly bright star of the outfit. He was acclaimed last season as an All-American and currently is the nation's leading scorer.

Bigos, also a forward, and Smith, a guard, also have scored freely in helping to lead LIU to a season record of 20 victories in 24 games.

Accepted \$3,000 Bribe

When the players were booked at the Elizabeth street station they were specifically charged with "accepting \$3,000 to throw a game with Kansas State, Dec. 2, 1950, at Madison Square Garden," a detective said. LIU won this game 60-59, after blowing big lead.

The Long Island University players—three of the best the east has known—have been under investigation since early in January, Hogan said, and the case against them actually began to take shape before loose ends in the CCNY fix had been put together.

On Point Spread

He added, however, that "there still is a great deal of paper work to be done" before a breakdown on the money they were paid and the games they fixed can be revealed.

The games were rigged mainly on the point spread, rather than on outright losses, Hogan quoted the players as saying. This is in

New Castle High Cagers End Season Tonight At Ellwood

Complete 26th Year Of Feuding

Canes Hold Big Edge In Section III Play

New Castle (10-9) and Ellwood City (8-12) complete their 26th year in section III competition, and also league feuding, tonight in the Lincoln high of Ellwood.

In all the years of league battling, since 1926, the Canes have won 44 times and lost only seven. The Wolverines were without a victory over New Castle from 1927 to 1943, a period of 16 years. Ellwood has come up with six wins in the last 15 games played.

The Canes and Ellwood, hopelessly out-distanced in the section scramble, vie tonight only for prestige, although New Castle possibly slide into a fourth place league tie with Ambridge, and Ellwood can gain undeniable revenge with a victory.

An Ambridge loss and a Cane victory will place the two even in league standings with five wins and 12 losses. An Ellwood win would make the entire Wolverine season a success, and even the score for the 50-47 loss suffered here earlier in the season.

New Castle must win tonight to stay above .500 in wins and losses. The Canes in winning 10 of 19, have tallied 887 points against 867 for the opposition.

In league play, New Castle has gone under seven times while winning four. Ellwood has won but two games in 11 encounters, after winning six pre-season contests.

Coach Ted Wallace will play Burt Starr (142 league points), Carl Tammara, John Nonoff, Frank Smilak and probably Merle Young or Bill Conrad.

Coach John Milanovich will line up with John Sansone, Ray Latsko, Paul Bucker and probably Conrad Palumbo and John McKay. Bill Boak is also a likely starter.

Sansone, Latsko, Bucker, Vitale and Cobau will represent the Hurricane floormen for the final time tonight.

United Edges Franklin Elks By Score 68-67

United A.A. basketball team traveled to Franklin, Pa., over the past week end and came home with a thrilling 68-67 win over the strong Franklin Elks. This was the second loss the Elks have suffered on their home floor in three years. The only other team to down the Elks at home was the Beaver Falls Legion in a game last week.

The game, which was contested from start to finish and it was not until the final three seconds that the United scored the winning bucket.

Janacone Is Hero

For three quarters, the Elks took slim leads from the United but the locals always seemed to bounce back and that is what happened to the lead also as it changed hand on numerous occasions. At the end of the first period, the Elks held a one point 15-14 lead and led by the same margin at halftime, 34-33. In the third period, they picked up a three point lead of 51-48 but during the final stanza, the outcome was always in doubt.

With only seconds remaining and United leading 66-65, they began to freeze the ball, but Franklin's star forward, Biery, stole the ball and made a desperation try which was good and put Franklin in the lead, 67-66. With time running out and the ball in United's possession, Harp Janacone made a perfect set shot with three seconds remaining for the game winning basket and a "Merriwell" finish.

Janacone led the locals in scoring, hooping a total of 27 markers, with Buck Kerr pitching in 16. Biery, Franklin's ace was high for the losers with 19.

Urges Title Bout Be For 10 Rounds

PHILADELPHIA, Feb. 20.—(INS)—Title bouts in professional boxing should be limited to 10 rounds, in the belief of John (Ox) Dargosa, of the Pennsylvania State Athletic Commission.

Dargosa also urged in a talk at St. Thomas More high school yesterday that other fights should be restricted to six rounds.

County Cagers Complete Loop Play Tonight

The curtain falls on the 1951 Section 23 basketball scene tonight, with Wampum at New Wilmington, Shenango at Union, and Mt. Jackson at Bessemer.

Fourth place in the section standing and an undefeated league season for the pennant winning Wampum Indians are at stake in tonight's games. New Wilmington, Shenango and Union all have identical records to date and the fourth place team will be decided from these three tonight.

Many seniors will be playing their final section games tonight, though most of them will see action again in the coming Tri-County tournament, which will be held in March.

The Parkstown Recreation Center bowling team defeated the Alliance, O., Paladium team last Saturday at the Parkstown Alleys, 2823 to 2455.

Red Adams was high man for the three games with 608 points, and Stan Bukowski was single game high with 226.

Sisler Confident Of Hitting Better

CLEARWATER, Fla., Feb. 20.—(INS)—Outfielder Dick Sisler, star of the Phillies' last-ditch pennant drive in 1950, believes he will top the 300 mark in batting for the first time in his career next season.

At the Phils' training camp, Sisler said he has fully recovered from an injury to his right wrist.

Distribute 200 Bushels Of Corn

When the Lawrence County Sportsman's association convenes tonight in Ecclesian hall, a report will be made that a group of members picked more than 200 bushels of corn at the old Jordan game farm recently which enabled the game protector to distribute food to wildlife throughout the county.

The men who picked the corn were: James Boyd, Sr., James Boyd, Jr., Samuel Chell, Paul Crable, Robert Koski, Norman Binstim, W. G. McKee, Nick Mastern, Russell Gormley, Frank Conway, Len Green, Joseph Mehalec, Andrew Mehalec, Jack Mehalec, Charles Pruitt, Moe McConnell, Louis Zeelsdorf and Earl Smith.

After picking corn the group was served a lunch by Mrs. Calvin Hooper, wife of the game protector.

DUKES VS. WAYNESBURG

PITTSBURGH, Feb. 20.—(INS)—Dukes' slumping, Duke meet the hopped-up Waynesburg Yellow Jackets tonight in Pittsburgh.

Although Duquesne is favored, Waynesburg is accorded a good chance to pull an upset because the Dukes have lost five of their last six games.

Championship golfers must be born that way and cannot be manufactured out of their own resolute efforts like some other athletes.

Miceli Winner Over Williams

Has Champ Groggy At End Of Bout

PHILADELPHIA, Feb. 20.—(INS)—Joe Miceli, free-swinging New Yorker who enters the army next week, won his last civilian battle by decisively defeating lightweight king Ike Williams at the arena last night.

Miceli's second win in three meetings with Williams made him number one contender for Ray Robinson's vacated welterweight title in the eyes of the Pennsylvania State Athletic Commission.

Williams Groggy

Referee Charley Daggert and both judges each scored six rounds for Miceli, who scored repeatedly with damaging lefts during the 10-round non-title bout. Williams weighed 141½, Miceli 143½.

Trenton Ike had the better of the in-fighting, but he caught too many long lefts and had to be guided to his corner by Daggert after the final bell.

A crowd of 7,801 paid a gross gate of \$27,384 to watch the non-broadcast, non-telecast card.

HERE and THERE IN SPORTS LAND

REVIEW OF THE ACTION taken by the Pennsylvania Federation of Sportsmen Clubs convention in Harrisburg brought these conclusions today:

One of the most important resolutions passed dealt with the special permit system of licensing antlerless deer hunters. The method of declaring a season was approved in a voice vote, with an addition that under such circumstances the abrogation clause in the game code would be removed, according to the I.N.S.

Another resolution passed, specifically asked that the legislature give the power of declaring any kind of a deer season exclusively to the game body, unhampered by the abrogation clause. If the legislature grants the federation wish, it will be impossible for any county to close its borders to the hunting of antlerless deer.

In still another resolution, the game commission was asked to restore from 13,000 to 20,000 the maximum mileage of a game protector a year, for which he would be reimbursed. Originally the game wardens were reimbursed seven cents a mile up to a maximum of 20,000 miles annually, but recently the distance was reduced.

An important resolution on fish asked the legislature to amend the law which prohibits fishing in all streams of the state from March 15 to April 15, the opening day of the trout season. A number of these streams closed are not trout waters, but still remain closed.

A resolution which caused some lengthy heated debates asked the federation's approval for a state legislative investigation "into the ways and methods used by the Pennsylvania Game commission in setting the 1950 game season, especially the deer and doe seasons... in removing the usual camp limit of six deer per camp... and at this inquiry also investigate the methods used by the game commission in its game management and game propagation systems."

Delegates criticized severely, a legislative bill which if passed would make it possible for two representatives from the House and two from the Senate to sit in the fish commission and another four in the game commission.

The various sportsmen club and interested conservation agencies and groups have been fighting for years to keep politics out of the game and fish commissions. This bill, if passed, would enable the politicians to get a foot in the door and from there no one knows how far they might expand.

Another bill criticized was one in which each of the state's 67 counties having state game lands would be able to claim 50 per cent of the timber sold from these game lands.

The land was bought by the commission for sportsmen's use and at times it is necessary to cut timber which is sold. Sportsmen actually own the land and feel no obligation to any county to the extent that their timber profit should go anywhere but into the game fund.

The federation approved a resolution commending the Boy Scouts of America for establishing "Conservation-Education" week and for their work in promoting it.

Convention delegates from eight divisions, representing some 200,000 members, presented some 40 resolutions.

But only a few held actual merit while several made no difference one way or another. Most of the resolutions, however, were considered too far from constructive to even need attention.

Good News For Deer Hunters

WASHINGTON, Feb. 20.—(INS)—The government has notified deer-hunting sportsmen they may have deer hides processed as they see fit for personal use.

The National Production Authority had specified that deer skins could only be tanned for military use as part of the mobilization program.

But the NPA changed its mind and said if you are lucky enough to bag a deer you may have the hide processed for personal gifts or products according to your own choice.

VILLANOVA, Pa., Feb. 20

(INS)—Villanova College brought its season's basketball log to 20 and 4 last night by trouncing St. Peter's of Jersey City, 93-61, at the main line field house. Larry Hennessey paced the Wildcats with 29 points.

Fusari-Bratton Winner May Get Welter Crown

Will Meet March 14
In Chicago Stadium

CHICAGO, Feb. 20.—(INS)—Charlie Fusari and Johnny Bratton will meet in a 15-round bout at Chicago Stadium March 14 and the International Boxing Club will try to have the winner declared welterweight champion of the world.

IBC Secretary Truman Gibson announced the match at a meeting of the Illinois Athletic commission yesterday and said he will ask Commission Chairman Joe Triner to rule the fight a title bout when Triner returns from a vacation.

Title Vacated
Commissioners Lou Redzenda and Ralph Metcalfe said they backed Gibson's move because "it is a bad idea to have the championship unclaimed too long."

The National Boxing Association and the Illinois commission declared the welterweight title vacant last Wednesday when Champion Ray Robinson whipped Jake LaMotta in Chicago for the middleweight crown.

Bratton, a Chicago fighter, moved into contention as a welterweight in the last four months when he scored four knockouts in six bouts. He has an overall record of 41 victories, 24 by knockouts, and 16 defeats.

Fusari, an ex-milkman from Irvington, N. J., has 63-7 record, 35 of his triumphs being knockouts.

Cliff Chambers Talks With Rickey But Does Not Sign

PITTSBURGH, Feb. 20.—(INS)—General Manager Branch Rickey finally has found a player worth his mettle from among the Pittsburgh Pirates, but Rickey probably wouldn't admit it.

Tall, husky Cliff Chambers, a left-hand pitcher with a blazing fast ball who won 12 games and lost 15 for the last-place Pirates during 1950, listened to the smooth Rickey palaver for more than an hour yesterday and still refused to sign his contract.

Chambers wants a raise over the reported \$15,000 he drew last season. This was Rickey's second attempt to sign the big southpaw.

Another meeting is scheduled for later this week.

Pirates Secure Bull Pen Coach

PITTSBURGH, Feb. 20.—(INS)—The Pittsburgh Pirates today signed Sam Narvon of Middlesex, N. C., to replace Len Levy as bullpen coach during the 1951 season.

Narvon was the Brooklyn Dodgers' bullpen coach last season.

Deer Kill Shows Sharp Reduction

HARRISBURG, Feb. 20.—(INS)—The 1950 deer kill announced today by the state game commission reflected a sharp reduction from the 1949 total.

Hunters killed 23,302 antlered deer and 31,515 antlerless last year for a total of 54,817.

In 1949, the commission reported, 46,602 antlered and 84,212 antlerless deer were bagged for a 130,854 total.

The commission blamed the difference on a severe snowstorm that ruined the deer season for most sportsmen.

In addition, a spokesman said, 14 counties were closed against antlerless deer hunting, and "economic conditions kept many gunners from their favorite woods areas."

Sanders Biggest Pro Grid Nuisance Latest Figures Show

PHILADELPHIA, Feb. 20.—(INS)—Orban Sanders, of the New York Yanks, qualified officially today as the worst nuisance in the National Football League to pass-pitching opponents.

Final NFL statistics show that Sanders led all others in pass interceptions. The former University of Texas star swiped 13 passes to tie an all-time league record and brought back his loot for a total of 199 yards.

Woody Lewis, of the Los Angeles Rams, and Don Doll, of the Detroit Lions, were close behind with 12 interceptions apiece. Lewis gained 275 yards on his catches.

The interception crown went to the Philadelphia Eagles who edged out the Baltimore Colts.

Three More Yanks Sign Contracts

NEW YORK, Feb. 20.—(INS)—The New York Yankee 1951 roster is five short of completion today. Before the first contingent of Bombers left for their Phoenix, Ariz., training site last night, the world champions announced the signing of Outfielder Hank Bauer, Infielder-Outfielder Johnny Hopp and reserve Catcher Charley Silveira.

The Yankees have yet to sign Catcher Yogi Berra, Pitchers Ed Lopat and Tommy Byrne, Infielder Bill Johnson and Rookie Infielder Gene Markland.

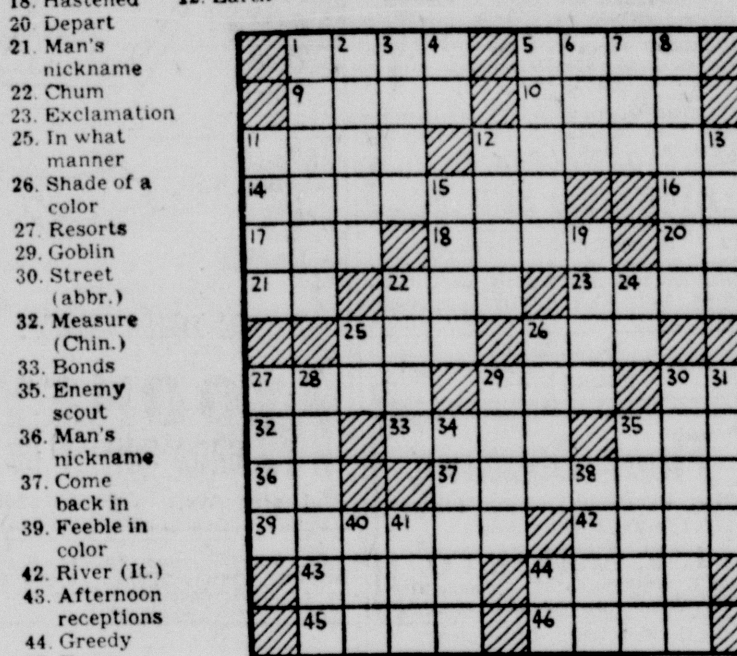

Connie Mack Watches Athletics Work Out

WEST PALM BEACH, Fla., Feb. 20.—(INS)—Manager Jimmie Dykes scheduled first formal workouts for pitchers and catchers of the Philadelphia Athletics today as spring training began to move ahead.

Connie Mack, a spectator for the first time in 50 years, merely beamed greetings to the players. By last night, 16 of the 38 rostered A's were present and accounted for.

Phils Have Tall Squad In Camp

CLEARWATER, Fla., Feb. 20.—(INS)—Manager Eddie Sawyer looked over his early-bird contingent of Phillies candidates and commented: "Gosh, they are a bunch of big boys."

Records showed that only eight of the 40 men on the rolls are under six feet. Sawyer said he was initially impressed by Walter Duerck, 24-year-old Philadelphia native, a rookie who performed at third base.

CELLAR EXCAVATING

Vandalism Probe Likely

DETROIT, Feb. 20.—(INS)—John J. Burling, assistant counsel for the Senate Crime Investigating committee said Monday an investigator may be sent back to Detroit to look into acts of vandalism which may stem from last week's hearings in the motor city.

He said Detroit police reported two instances in which vandals ruined juke boxes by pouring acid into them, and that it is possible the acts were in retaliation against witnesses who appeared before the committee.

The complaint came from Philip Berman, owner of the juke boxes, who testified before the committee that two police characters—Pete Licavoli and Joe Bommarito—tried to force their way into his business a decade ago.

Burling said of the vandalism: "If this has been done in retaliation against Berman for anything he said at the hearing, the committee is certainly concerned. If these acts are of that nature, an investigator will return to Detroit."

Berman has been in the music box business for 35 years.

Today's Fashion Flash

NEW YORK, Feb. 20.—(INS)—The fashion story has been "out of print" for four years—but this spring, the stenciled fabric is back with a boom!

Prints have never been bigger, mode-wise. And you can almost spot a designer by the spots on the material before your eyes.

For instance, if a dress is made of an animal print (and costs upwards of \$100), the designer is probably Adrian. He splashes almost life-size animals down the fronts of his sheath skirts.

Nettie Rosensteins' print insignia is the delicate flower that trails down the neckline.

The illustrious Tigere likes abstract patterns—jutting lines that mimic a fever chart.

Mainbocher picks small, precise patterns, the kind you might find on conservative men's ties. Ceil Chapman chooses flowers and curlicues that resemble nothing more strongly than watch-works.

Adele Simpson goes for lacy grill-work patterns. And Mme. Lilly Dache prefers her personal trade-mark—lilies.

Everything that's fit to print is on dresses this spring!

CONSTIPATION GONE—FEELS LIKE OLD SELF

"For the past 3 years I have eaten ALL-BRAN every morning for breakfast. It's no mean trick for a man my age (73) to be regular. Thanks to ALL-BRAN I am." Wm. H. Tien, Sr., 124 Brown St., Watseka, Ill. One of many unsolicited letters from ALL-BRAN users. If you, too, suffer from constipation due to lack of dietary bulk, eat an ounce (about 1/2 cup) of crispy Kellogg's ALL-BRAN daily, and drink plenty of water! If not satisfied after 10 days, send empty carton to Kellogg's, Battle Creek, Mich. Get DOUBLE YOUR MONEY BACK!

Urges Cancellation Of Order For Lower Octane Gas Ratings

WASHINGTON, Feb. 20.—(INS)—House Republican leader Martin of Massachusetts urged Secretary of the Interior Chapman Monday to cancel plans to lower gasoline ratings.

Martin wrote Chapman that the proposed order is regional and would discriminate against millions of automobile owners in the east, while it would not affect the gasoline used further west.

The congressman said that since the order is designed apparently to conserve tetraethyl lead, the equitable thing to do would be to order a flat across-the-board percentage cut in the amount of lead each refining company is allowed to use.

229th Soldiers Attend School

Three more men of the 229th Field Artillery Battalion have been assigned to service schools.

Lieutenant Ben. A. Hamed of 408 1/2 Lyndal street, Pfc. Condi Augustine of 846 Dewey avenue and Sgt. William C. Thomas of R.D. 2, Pulaski, have been assigned to attend the Artillery school in Fort Sill, Okla.

The first two named are taking a twelve weeks course in communications and Sgt. Thomas is attending an eight week course in artillery operations.

Advertising handbills were known in ancient Rome.

See Yourself On Television

Television has come to New Castle.

Not commercially but in a demonstration in the Haney Furniture Company.

Every day and evening of this week through Saturday folks are being televised in the Haney store but best of all they can see themselves in the television receivers. RCA Victor Company has installed a television camera with five receivers scattered about the room. As a person walks into the range of the camera his image is flashed on the five receivers.

In charge of the costly television equipment are T. W. Martin, technician; and E. L. Brown, engineer. Mr. Brown recently returned from a trip through South America and Mexico in which he televised many events.

It's fun and a lot of people are taking advantage of seeing themselves on a television screen. The display will be in the store each day and evening until 9 o'clock, closing Saturday night.

Third U.P. Members To Dine Wednesday

Members and friends of Third United Presbyterian church will gather Wednesday evening, February 21, at 6:30 o'clock in the church for a tureen dinner. Dessert and coffee will be furnished by the committee.

After serving, "This Is My Church," a film, showing the denomination-wide program, will be shown.
